For sanitary pool water, add POOL 12 daily to kill germs and control algae. POOL 12 is recommended for use in all types of pools: vinyl lined, concrete and fibreglass.

DIRECTIONS: Before adding POOL 12 adjust pH to 7.4 to 7.6. Add sodium hypochlorite daily to the pool water at the rate of 150 mL per 10,000 litres of water or as needed to maintain reading of 0.6 ppm to 1.0 ppm "free available chlorine".

NOTE: First application should be double the indicated amount or sufficient to get a chlorine reading from the pool water 1/2 hour after addition and circulation.

CAUTION: Keep out of reach of children. Never pre mix with other Pool Chemicals. Mild oxidizing agent. Do not get on skin or in eyes. May be fatal or harmful if swallowed. Store only in original container, tightly closed in a cool dry place away from heat or sunlight.

FIRST AID TREATMENT: Contains Sodium Hypochlorite. If splashed

in eyes or on skin, flush thoroughly with water. If swallowed, give one or two glasses of milk or warm water. Call physician immediately. Keep patient warm.

Keep out of reach of children. Use only as directed. Keep tightly capped in upright position.
