PRECAUTIONS

DANGER CORROSIVE TO SKIN

KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes burns. Causes eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves and protective clothing when handling. Harmful or fatal if swallowed. Avoid contamination of food.

KEEP AWAY FROM HEAT OR OPEN FLAME

ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Treatment effluent should not be discharged where it will drain into lakes, streams, ponds, or public water.

FIRST AID:

CONTAINS 40% METHANOL. Detailed procedures for treatment should be available through Poison Control Centres.

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician or poison control centre immediately. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

DIRECTIONS FOR USE

CRONOX MEP-426 is a combination compound for treatment of packer fluid. This product contains a corrosion inhibitor for protection against hydrogen sulphide, carbon dioxide and organic acids. It is also an oxygen scavenger and a biocide effective against sulphate reducing bacteria such as *Desulfovibrio desulfuricans* as well as slime-forming bacteria.

PACKER FLUIDS TREATMENT, FLOWLINES and/or VESSELS

Calculate the volume of fluid (fresh water or brine) and premix the chemical to obtain concentrations of 5,000 - 10,000 ppm (0.5% - 1%) depending on the severity of the corrosion problem. Pump mixture in the annular space, flowline and/or vessel.

STORAGE AND DISPOSAL

STORAGE:

1. PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal.
2. STORAGE: This product is corrosive to mild steel. Do not store or transport in unlined metal containers. Do not use, pour, spill or store near heat or open flame.

DISPOSAL:

1. Triple or pressure-rinse the empty container. Add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill and for clean-up of spills.
