CONTROLS THE GROWTH OF ALGAE, BACTERIA AND FUNGI

DIRECTIONS FOR USE

1)Cooling Tower Systems:

Prior to the use in water cooling towers, systems should be cleaned to remove organic, inorganic and microbiological deposits. An initial slug addition of 320 to 480 ml per 10, 000 litres of water should then be added to the sump of the cooling water towers. Repeat the initial dosage until control is evident. Subsequent slug additions of 160 to 480 ml per 10,000 litres of water should be added every 2 to 5 days or as needed. The frequency of addition will depend on the relative amount of bleed off and the severity of the microbiological problem.

2) Industrial Air Washing Systems:

Prior to use in air washers, systems should be cleaned to remove organic, inorganic and microbiological deposits. An initial slug of 74 to 94 ml per 1,000 litres of water should then be added to the sump or the water collector trays. Repeat the initial dosage until control is evident. Subsequent slug additions of 34 to 94 ml per 1,000 litres of water should be added every 1 to 5 days or as needed. The frequency of addition will depend on the relative amount of bleed off and the severity of the microbiological problem.

For use only in systems equipped with effective mist eliminating components.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contact with eyes, skin, clothing and the contamination of food. Wear safety glasses (goggles), rubber gloves and body-protective clothing.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water, food, or feed by storage or disposal. Do not reuse empty container. Not intended for use in potable water systems.

FIRST AID: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes or longer until irritation subsides. Call a physician. In case of contact with skin, wash with soap and water. Call a physician if irritation occurs. Remove contaminated clothing and wash before reuse. Discard contaminated shoes. If swallowed, rinse mouth and give 1 to 2 glasses of water or milk to dilute stomach contents. Avoid alcohol. Call a physician or poison control center at once. Never give an unconscious person anything by mouth. In case of inhalation: Use proper respiratory protection to immediately remove the affected person from exposure. Administer artificial respiration if breathing has stopped. Keep at rest. Get prompt medical attention. Take container, label or product name and Pest Control Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to person or property arising from the use or handling of this product on that condition.

DISPOSAL:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.
