TECHNICAL 31% SODIUM CHLORITE SOLUTION

FOR MANUFACTURING, FORMUATION OR REPACKAGING READ THE LABEL BEFORE USING

REGISTRATION NO. 25559 PEST CONTROL PRODUCTS ACT

NET CONTENTS ---- KG

MANUFACTURER/REGISTRANT: ATOFINA CHEMICALS INC 2000 MARKET STREET PHILADELPHIA, PA 19103 USA 215-419-7000

DIRECTIONS FOR USE

For use only in the manufacturing and formulation of products registered under the Pest Control Products Act. Formulators are responsible for registering their products under the Pesticide Control Products Act.

PRECAUTIONS: KEEP OUT OF REACH OF UNAUTHORIZED PERSONNEL.

Causes irreversible eye damage and burns, due to corrosive nature. Maybe fatal if swallowed. Do not take internally, irritating to nose and throat. Avoid breathing fumes. Do not get in eyes, on skin, or clothing. Wear long pants over a longsleeve shirt, goggles or face shield, chemicals resistant gloves, a chemical resistant apron and boots when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, smoking a d using the toilet. Remove contaminated clothing and wash before reuse. Do not wear contaminated clothing.

FIRST AID

IF SWALLOWED: Drink large amounts of water. Contact a poison control center or Physician IMMEDIATELY.

IF IN EYES: flush eyes with water for at least 15 minutes. Contact a poison control center or physician.

IF ON SKIN: flush skin with water for at least 15 minutes. Contact a poison control center or physician.

IF INHALED: Remove Victim to fresh air. Contact a poison control center or physician. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

ENVIRONMENTAL HAZARD:

This product is highly toxic to fish and aquatic invertebrates and moderately toxic to waterfowl. Do not contaminate lakes, ponds, rivers, estuaries or oceans by direct application, cleaning of equipment or disposal of wastes. Open dumping is prohibited.

DECONTAMINATION:

Contain spilled material, than add sodium sulfite at 2.8 parts of sodium sulfite to 1 part of sodium chlorite. Do not allow oxidizable or other incompatible materials to come into contact with spilled material. Do not flush into surface waters.

CHEMICAL-PHYSICAL HAZARDS:

Sodium chlorite is an oxidizing agent. Contamination with other materials such as acids, chlorine, organic chemicals, etc may cause a chemical reaction, resulting in evolution of chlorine dioxide and heat. Explosion and/or fire could result. Chlorine dioxide is a poisonous, explosive gas. Keep all chemical and foreign materials away from this solution.

STORAGE: Store upright in cool, dry and well ventilated place. Avoid excessive heat or freezing. Protect from contact with other chemicals, avoid storage with organic chemicals, acids, reducers and combustible materials. Keep container tightly closed when not in use. In case of spills, flush and drain promptly to sewer with large quantities of water. Do not allow liquid to dry because this could present a fire hazard, if fire occurs, extinguish with large volume of water.

EMERGENCY HANDLING: In case of contamination or decomposition, do not reseal container. Isolate in an open, well ventilated area. Flood with large volumes of water. Cool unopened drums in vicinity by water spray.

DISPOSAL: Canadian formulators of this technical should dispose of unwanted active and containers in accordance with municipal or provincial regulations. For additional details on cleanup of spills, contact the Provincial Regulatory Agency or the manufacturer.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the PEST CONTROL PRODUCTS ACT to use a control product under unsafe conditions.

NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product, and accepts the product on that condition.
