Truly (TM) friends
Scoopable cat litter anti-bacterial agent

baking soda for added odour control without harsh chemicals or overpowering fragrances

anti-bacterial agent that fights litter box germs

granules rapidly absorb urine, bonding tightly together to form easy to remove clumps

DIRECTIONS FOR USE

1. Use a clean moisture-proof litter box large enough for your pet. Fill the litter box evenly with 5 to 8 cm (2 to 3 in.) of truly friends scoopable litter.
2. Remove solid waste and clumps daily with a slotted scoop and discard. Remaining granules are fresh and clean and need not be discarded. Dispose of waste in a closed garbage container. Do not flush down toilets or into septic systems.
3. Add more truly friends scoopable litter every few days to maintain an even depth of 5 to 8 cm (2 to 3 in.).

PRECAUTIONS always wash your hands thoroughly after waste removal. Pregnant women and individuals with suppressed immune systems should note that a parasite sometimes found in cat feces could cause toxoplasmosis. For more information consult your doctor.

this product is filled by weight, not volume. Settling will occur.
