APPLICATOR DIRECTIONS:

SPRAYS A FINE MIST OR JET STREAM. Child resistant closure locks applicator nozzle when turned to the "OFF" position. To unlock the applicator nozzle, use thumb to push down the locking flap on top of the sprayer. Adjust nozzle to provide a coarse, jet stream. Aim at weed and pull trigger. Only short burst necessary. When done, turn nozzle to "OFF" to lock the sprayer nozzle.

STORAGE: Store product in original container in a safe place. Keep from freezing.

DIRECTIONS:

- Apply when weeds are actively growing.
- Do not water for 24 hours. Rain within 6 hours reduces effectiveness.
- Spray acts within a few days and weeds gradually die. Grass fills in as weeds disappear.
