DIRECTIONS FOR USE

OLYMPIC(R) Wood Preservative Clear is recommended on exterior bare wood surfaces which may be exposed to attack by wood rot, mildew, ultra violet light, or excess moisture. Use it on structural lumber, beams, timbers, sills, millwork and roofs - anywhere wood is used above ground and needs extra protection. Wood surfaces treated with Wood Preservative Clear will be protected from moisture damage, mildew and rot, but will still "weather" naturally. For severe exposure to wood rot, pressure treated wood offers maximum protection.

SURFACE PREPARATION: All surfaces must be clean, dry and free of mildew.

APPLICATION: Stir before using. Best applied with a natural bristle brush. Use only one thin coat. DO NOT THIN.

COVERAGE: Approximately 13.9 - 23.2 sq. meters per 3.78 Litres depending on wood texture, porosity and dryness.

DRYING: 24 to 48 hours under ideal conditions.

CLEANUP: Clean brushes and other tools with mineral spirits.

DANGER - RAGS, STEEL WOOL OR WASTE SOAKED WITH OLYMPIC CLEAR WOOD PRESERVATIVE MAY SPONTANEOUSLY CATCH FIRE IF IMPROPERLY DISCARDED. IMMEDIATELY AFTER USE, PLACE RAGS, STEEL WOOL OR WASTE IN A SEALED WATER-FILLED METAL CONTAINER. Place closed metal container away from buildings and other combustible materials.

FOR ADDITIONAL INFORMATION - ASK YOUR DEALER

NOTICE TO BUYER

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the Buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

PRECAUTIONS: DANGER! HARMFUL OR FATAL IF SWALLOWED. MAY

CAUSE SKIN AND EYE IRRITATION. COMBUSTIBLE. Keep away from heat, sparks and flame. Avoid breathing of vapor. USE WITH ADEQUATE VENTILATION. Do not get in eyes, on skin, or on clothing. Remove contaminated clothing immediately. Wear eye protection, rubber gloves, and protective clothing when applying or when handling freshly treated lumber. Do not take internally. Close container after each use. Store unused product in a safe place out of the reach of children.

FIRST AID: If swallowed, do not induce vomiting. Call a physician immediately. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

DISPOSAL: Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. For information on the disposal of unused, unwanted product and the cleanup of spills contact your municipality, Provincial Ministry of Environment or the regional office of Environment Canada. Do not reuse container.

For Emergency Medical and Spill Control Information, call (514) 645-1320.
