BACTIMOS(R) GRANULES

GRANULAR LARVICIDE FOR CONTROL OF MOSQUITO LARVAE

RESTRICTED

NET CONTENTS: 18 kilograms

GUARANTEE:

Bacillus thuringiensis BERLINER, SEROTYPE H-14, POTENCY OF 175 Aedes aegypti (AA) INTERNATIONAL TOXIC UNITS(ITU) PER MILLIGRAM OF GRANULES (EQUIVALENT TO 0.175 BILLION AA ITU PER KILOGRAM OF PRODUCT).

REGISTRATION NO. 19220 PEST CONTROL PRODUCTS ACT

READ THE LABEL BEFORE USING

CAUTION: KEEP OUT OF REACH OF CHILDREN

STORE IN A COOL, DRY PLACE AND TIGHTLY

RECLOSE CONTAINERS OF UNUSED BACTIMOS.

KEEP OUT OF DIRECT SUNLIGHT

DUPHAR B.V. Crop Protections Division C.J. van Houtenlaan 36 1381 CP, Weesp - Holland

CANADIAN AGENT: CHEMAGRO LIMITED 256 BRITANNIA ROAD EAST MISSISSAUGA, ONTARIO L4Z 1S6

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the PEST CONTROL PRODUCTS ACT to use a control product under unsafe conditions.

NATURE OF RESTRICTION: This product is to be used only in the manner authorized; consult local pesticide regulator authorities about use permits which may be required.

RESTRICTED USES - DIRECTIONS FOR USE

BACTIMOS Granules are recommended for control of mosquito larvae by ground or aerial application. Use the higher rate in heavily polluted water, when populations are high and when aquatic or covering vegetation is dense. Most treatments require no more than 8.5 kg/ha. Best control will be achieved if treatment is made before larvae reach the fourth instar. BACTIMOS Granules are not effective against pupae.

For aerial application, apply in uniform, non-overlapping swathes when conditions do not favour drift, or when wind speeds are less than 10 km/hr.

PEST	SITE	RATES (kg/ha)	REMARKS
Mosquito Larvae	Pools, ponds, flood water, pastures, ditches, brackish water, light to moderate populations.	5.7-8.5	Allow 24 hours for control. A 3-14 day interval between applications should be employed.
	Catch basins, tidal water, salt marshes, storm water retention areas with moderate pollution or organic content.	8.5-11.0	Monitoring will determine the proper retreatment interval.
LIMITATION: DO NOT APPLY TO WATER THAT WILL BE USED FOR DRINKING WATER.			

RECOMMENDED APPLICATIONS

PRECAUTIONS - HAZARDS TO HUMANS: Avoid contact with eyes, open wounds, or skin. May cause skin irritation. In case of contact, flush affected area with water. If irritation occurs, see a physician.

STORAGE: Close containers of unused granules. Store in a cool, dry area.

CONTAINER DISPOSAL:

- 1. Follow provincial instructions for any required cleaning of the container prior to its disposal.
- 2. Make the empty container unsuitable for further use.
- 3. Dispose of the container in accordance with provincial requirements.
- 4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Conservation and Protection, Environment Canada.

NOTICE: Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
