GENERAL INFORMATION

HI-MIX is a blend of surfactant and petroleum hydrocarbons  
designed for use with ASSURE herbicide sprays. Refer to the  
ASSURE label for detailed use instructions.

DIRECTIONS FOR USE

Apply the specified rate of ASSURE with HI-MIX, or ASSURE + MUSTER (R) with HI-MIX at 5-10 litres per 1000 litres of spray solution (0.5-1.0% v/v). Use the high rate of HI-MIX when wild oats or quackgrass are the main target weeds, or under conditions not conducive to good growth. Refer to the "Mixing Instructions" section of this label for specific mixing instructions. Additional surfactant is not required when using HI-MIX. For best results, follow the timing and specific weed control recommendations stated on each product label. Consult the ASSURE and MUSTER labels for desired use rates, weeds controlled, spray preparation and additional restrictions regarding the use of ASSURE and MUSTER.

#### MIXING INSTRUCTIONS

1. Thoroughly clean the sprayer prior to use. For appropriate cleaning instructions, refer to the label of the product sprayed previously.
2. Fill spray tank half-full with clean water. Keep agitator running.
3. If tank mixing ASSURE with MUSTER, add the required number of MUSTER Toss-N-Go bags to the tank with the agitator running. Ensure that the herbicide is completely mixed before proceeding to the next mixing step.
4. Add the desired amount of ASSURE to the half-full tank with the agitator running.
5. After the ASSURE has been well mixed, SLOWLY add the required amount of HI-MIX to the tank with the agitator running.
6. Add the rest of the required water to the tank. Mix well before applying to the crop.

On repeat tank loads, ensure that the amount of spray solution left in the tank from the previous load is less than 10% of volume about to be mixed.

#### SPRAYER CLEAN-OUT

For ASSURE with HI-MIX, follow steps 1 to 4 and consult the ASSURE label.

For ASSURE + MUSTER with HI-MIX tank mix, follow the sprayer clean-out directions on the MUSTER label.

1. Immediately after use, thoroughly clean the sprayer by completely filling spray tank with clean water while adding 1 litre of ammonia (containing 3% ammonia) per 100 litres of water. Agitate to mix water and ammonia.

Reduce amount of ammonia added proportionally if higher concentrations of ammonia are used. Flush solution through boom and nozzles, and then add more water to completely refill the tank. Agitate the solution for at least 15 minutes and then flush the boom and nozzles until the spray tank is empty.

2. Remove the nozzles and screens and clean separately in a bucket containing a cleaning agent and water.
3. Fill spray tank half full with clean water.
4. Agitate to thoroughly rinse the tank and flush the water through the boom.

#### PRECAUTIONS

1. KEEP OUT OF REACH OF CHILDREN
2. Do not take internally. Harmful if swallowed or absorbed through the skin.
3. Skin irritant. Avoid inhalation of vapour or spray mist and contact with eyes, skin or clothing.
4. Wash thoroughly after handling and before eating, drinking or smoking.
5. Wear protective equipment and clothing including goggles or face shield, gloves (rubber, PVC, neoprene or nitrile), hat, long sleeved shirt, trousers and rubber boots.
6. If clothing becomes contaminated, remove and wash separate from household laundry before re-use.
7. Clean spray equipment thoroughly after use.
8. Do not contaminate domestic or irrigation water, lakes, streams and ponds by the cleaning of equipment or the disposal of waste.

#### FIRST AID

##### IN CASE OF EYE CONTACT:

Flush immediately with flowing water for at least 15 minutes and consult a physician if irritation develops.

##### IN CASE OF SKIN CONTACT:

Wash with soap and water. Remove contaminated clothing and launder separately from household laundry before reuse. Consult a physician if irritation develops.

##### IF SWALLOWED:

Give water or milk, DO NOT INDUCE VOMITING. Consult a

physician immediately or call a poison control centre.

#### IF INHALED:

Remove person to fresh air. Assist breathing if necessary. Consult a physician immediately or call a poison control centre.

#### STORAGE

1. Store in original tightly-closed container and do not allow water to be introduced to this container.
2. Do not ship or store near food, feed, seed or fertilizers.
3. Store product in cool, dry, locked, well ventilated area without floor drain.
4. Herbicides should be shipped or stored separately from other pesticides to avoid cross contamination.
5. Product must be stored at temperatures above 5'C.

#### DISPOSAL

1. Triple-rinse the emptied container thoroughly and add the rinsing to the spray mixture in the tank.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer..

#### NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

#### NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this

product and accepts the product on that condition.
