PRESSURIZED SPRAY

CLIPPERCIDE

SHAKE BEFORE EACH USE

DISINFECTANTS & LUBRICANTS: Powerful disinfecting and fungicidal action takes place on contact. A thin film of lubricant remains behind to reduce friction and permit clipper to run smoother and more powerfully.

CLEANS & COOLS: The CLIPPERCIDE blast blows hair and dirt out from between the teeth, cleaning and at the same time cooling the blades.

LONGER LIFE: Regular use of CLIPPERCIDE will help give clipper blades longer cutting life, will keep blades sharper with crisper cutting action.

DIRECTIONS

Hold can upright. Spray CLIPPERCIDE through teeth of clipper blades covering all surfaces after each use. Electric clippers may be kept running while CLIPPERCIDE is being sprayed.

Keep clipper blades or clippers with attached blades in clean compartment until next use.

PRECAUTION: Do not use in presence of open flame or sparks. Contents under pressure. Do not place in hot water or near radiator or other sources of heat. Do not puncture or incinerate container even when empty, or store at temperatures above 50 (deg C). Avoid contact with eyes. Avoid breathing spray mist. Avoid prolonged skin contact.

STORAGE AND DISPOSAL

STORAGE: Store upright in cool dry place. If container is damaged and leaking, allow contents to dissipate out of doors.

DISPOSAL: Replace cap and discard in trash.

NOTICE TO USER - This product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
