GREEN CROSS EARWIG ELIMINATOR BAIT can be used for control of Earwigs and other crawling pests including Crickets, Cutworms, Millipedes, Sap Beetles, Sowbugs and Wood Roaches.

DIRECTIONS:

Place about 23 mL (1 1/2 tablespoons) of pellets in mounds in covered bait stations around foundations, sheds, garages, under decks and shrubs or in flower, fruit and vegetable gardens where Earwigs or other pests mentioned above are a problem. Moisten

the bait lightly and then cover the mound of bait with a flat stone or board, slightly raised with pebbles or small sticks, to make bait inaccessible to children, and pets, birds and other small animals, and to attract Earwigs and other pests which hide during the day. Evening is the best time to set out bait stations, as Earwigs are active at night. Bait stations remain effective for up to 10 days.

For instant control of Earwigs and other crawling pests, use GREEN CROSS Earwig Eliminator Aerosol.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. Hazardous if swallowed, inhaled or absorbed through the skin. Wash hands thoroughly with soap and water after use. Do not contaminate food, feed, ponds or streams.

FIRST AID:

If swallowed, rinse mouth, drink water and induce vomiting. See a doctor immediately bringing the container with you.

TOXICOLOGICAL INFORMATION:

Carbaryl is a carbamate cholinesterase inhibitor. Atropine is antidotal.

DISPOSAL:

Dispose of empty container with regular garbage.

NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
