**GUARANTEE:**

Pyrethrins 0.03%  
Piperonyl butoxide 0.3%

REGISTRATION No. 25627, PEST CONTROL PRODUCTS ACT

**500 mL**

**DIRECTIONS FOR USE:**

**FLYING INSECTS:**

Flies, mosquitoes, wasps, gnats, hornets, and flying moths. Close doors and windows. Direct mist upwards to all parts of the room especially windows and other light sources, using a sprayer, such as U.L.V. equipment, which produces a fine mist. Use 200-300 mL of solution/100 m3. Whenever possible, keep doors and windows closed for 15 minutes after each treatment. Also direct mist into areas where insects are present. Keep spray at least 1 metre from interior walls, fabrics and furniture. Ensure proper ventilation after sealed areas have been treated and clean up dead insects.

**CRAWLING INSECTS:**

Cockroaches, spiders, crickets, ants, silverfish, boxelder bugs and clover mites. Spray hiding places such as baseboards, moist areas, openings around sinks, drains and pipes, behind cabinets and storage areas. Spray ant trails around door sills, window frames or in ant nests. Insects must be contacted by spray to be killed.

Bed bugs: Spray mattress, particularly around seams and tufts. Take bed apart, spray all joints. Repeat as required. Ensure proper ventilation after sealed areas have been treated and clean up dead insects.

**GARDEN PESTS ON FLOWERS AND ORNAMENTALS:**

For insects on asters, azaleas, begonias, chrysanthemums, dahlias, delphiniums, gladiolus, irises, marigolds, petunias, roses and snapdragons. Also for insects on evergreens and small ornamental deciduous trees, shrubs and vines. For aphids, caterpillars, japanese beetles, lace bugs, leaf hoppers, spider mites, exposed stages of thrips and climbing cutworm. Do not use on maiden-hair ferns. Do not use on vegetable crops. Spray carefully with slow sweeping motion keeping 45 cm away from the plants to avoid wetting foliage. A light spray kills pests effectively. Spray only when air is still and temperature is under 32° C. Do not spray in direct sunlight: early morning or evening preferred. Use with caution on young plants and new growth. Insects must be contacted by spray to be killed.

**PRECAUTIONS:**

**KEEP OUT OF REACH OF CHILDREN**

Cover aquariums and remove pets for one hour when spraying rooms. In homes or dwellings, remove or cover all exposed foods and cooking utensils before spraying. Avoid contact with skin, eyes and clothing. Avoid inhalation of spray. Wash after using. Keep from freezing.

**FIRST AID:**

If in eyes, or on skin, flush with water. If irritation persists, obtain medical attention. If accidentally swallowed, obtain medical attention at once or call a poison control centre. Take container, label or product name and Pest Control Products Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

**DISPOSAL:**

Do not reuse empty container. Wrap empty container and discard in household garbage.

**NOTICE TO BUYER:**

Seller's guarantee shall be limited to the terms set out on the label subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
