KEEP OUT OF REACH OF CHILDREN

CAUTION

READ LABEL BEFORE USING

REG. NO. 19033 PCP ACT

NET CONTENTS: 310 mL

"4 the Birds"® is a transparent, sticky compound which, when applied to ledges and sills, will discourage birds from roosting or returning to these covered areas. This product remains tacky at -10°C and will not run up to 94°C. Where infestation is severe, heavy bird traffic may flatten repellent. In these instances, make a second application immediately. Repellent can be removed with naphtha or powder type cleaning agent.

**PRECAUTIONS AND ENVIRONMENTAL HAZARDS**

**DO NOT APPLY TO SURFACES WHERE SMALL PROTECTED BIRD SPECIES MAY BECOME ENTRAPPED BY THIS TACKY REPELLENT**

Use only in conformity with Federal Migratory Bird Treaty Acts regulations

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

Do not reuse empty container. Wrap container and discard with regular garbage. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

**DIRECTIONS FOR USE:** Surface must be clean and dry to ensure adhesion of repellent! Clean by wiping or scraping all dust, dirt, loose paint, droppings, etc. On porous surfaces such as stone or unpainted wood, surface must be sealed by brushing on one coat of shellac or a 50% solution of white glue. After coating has dried, apply repellent with a caulking gun or putty knife. Properly applied bead looks like this.  Ledges or Sills... apply about 2.5 cm in from edge in strips 1 cm in diameter. Press against sill to get good adhesion and leave occasional gaps for rain water to drain. Roofs, peaks and cornices, etc... apply 1 cm diameter bead along highest point. Press against surface to insure good adhesion. When applied 1 cm x 1 cm bead will cover 4 meters. **DO NOT APPLY LARGER DIAMETER BEADS OF REPELLENT.**

**FIRST AID:** Harmful if swallowed. Avoid contact with skin, eyes or clothing. In case of contact, immediately flush eyes or skin with plenty of water. If swallowed, contact physician or poison control center.

Get medical attention if irritation persists.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

**NOTICE TO USER:** This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.
