AQUA-EM 60 is a highly effective fungicide and bactericide for use in controlling the growth of bacteria and fungi found in industrial recirculating water cooling towers, and evaporative condensers.

HOW TO USE

Industrial Recirculating Water Cooling Towers and Evaporative Condenser: Dosages for industrial recirculating water cooling towers or evaporative condensers will depend on the condition of

the system prior to treatment initiation. Systems which are heavily contaminated should be cleaned first. Apply AQUA-EM 60 to the cleaned system or when growth is first noticed, according to the following schedule.

Initial Dose: Apply 100 mL of product per each 1000 Liters of water in the system (120 ppm). This dose may be repeated once, twice or three times weekly or as required to control the growth of slim-forming organisms.

Subsequent Dose: When microbial growth is evident, add 18 to 35 mL of product per 1000 Litres of water (20-40 ppm) in the system every three days as needed.

Feeding: AQUA-EM 60 may be fed directly from the drum or diluted with water and fed by any suitable feed system such as the HALCO ADTROL, AQUA-EM 60 should be dosed directly into the sump or basin or any other location where good distribution can be assured.

Precautions: Do not reuse empty containers. Container should be destroyed by perforation or crushing. Discard container in a safe place or return to drum reconditioner.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes.

AQUA-EM 60 is not recommended for potable water or where contamination of potable water can occur. Do not use with Chromate type of treatments.

WARNING - EYE IRRITANT KEEP OUT OF REACH OF CHILDREN. Causes eye and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a Physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call physician immediately.

NOTICE TO USER: "This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions."
