LOT NUMBER:

Creating solutions for cleaner environments

Savolite Corporation
1607 Derwent Way
Delta, B.C. V3M 6K8

Made in Canada

Savolite Inc.
10848 E. Marginal Way S.
Seattle, WA 98168

USEAGE:

To spot clean heavily soiled surfaces, spray on full strength INTERN and wipe off. Let stubborn spots soak for a few minutes before wiping off. Synthetic fabrics should be rinsed thoroughly after being spot cleaned.

For large surfaces such as walls, stainless steel, plastics, arborite, formica, vinyl, porcelain, slate, or fabrics, dilute one part INTERN with 10 parts water. Use a sponge, mop, or cloth to wash the surface with this solution.

Before spraying INTERN, remove or cover all food in the area. A potable water rinse is required when INTERN is used on food processing equipment.

INTERN kills odor-causing bacteria on any hard, non-porous surface.

PRECAUTION: Keep out of eyes. Avoid contact with food.

FIRST AID TREATMENT: If eye contact occurs, flush immediately with water.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
