Branches Throughout North America

CONTROLS: Annual and perennial broad-leaved weeds (bindweed*, black medick, buttercup, Canada thistle, chickweed, clover, corn spurry, curled dock, dandelion, dock, English daisy, fall hawkbit, grass-leaved stichwort, ground-ivy, heal-all, knotweed, mallow**, mossy stonecrop, narrow-leaved plantain, ox-eye daisy, ragweed, shepherd's purse, speedwell, thyme-leaved sandwort, wild

white clover) and poison ivy. This product is suitable for use on turf-grass, other established grass areas, vacant lots and along fence rows.

* Temporary Control ** Young Stages

DIRECTIONS: Apply 5-10 ml TURF-RITE PREMIUM WEED KILLER per litre of water. Spray 20 litres of mixture evenly over 10 m² using a pressurized sprayer or watering can spray to give thorough coverage without excessive run-off. Apply in late spring or early fall on actively growing weeds. Avoid applications during long dry periods. Repeat as necessary. Fertilize and water lawn after weeds are killed to fill in bare spots.

PRECAUTIONS: Avoid spray drift onto susceptible plants. Spray injurious to many cultivated species. Do not apply when rain is expected. Do not water within 24 hours of spraying. Do not use on bent grasses. Do not use same sprayers for other uses. Do not use on newly seeded lawns until after 3rd mowing. Avoid mowing for several days (at least 3) before and after treatment. Avoid contacting skin, eyes and clothing. Wash hands after using. Do not store near seeds, feeds, fertilizers, insecticides or fungicides.

FIRST AID: If swallowed induce vomiting. Obtain prompt medical attention. If in eyes flush with water. If on skin, wash with soap and water.

LIMITATION OF WARRANTY: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
