## INDUSTRIAL LIQUID MICROBICIDE

LIQUID MICROBICIDE FOR CONTROL OF ALGAE, BACTERIA AND FUNGI IN OPEN RECIRCULATING WATER COOLING SYSTEMS AND OTHER SIMILAR INDUSTRIAL APPLICATIONS.

**DIRECTIONS FOR USE: PULP AND PAPER:** AG-481 is recommended for the control of bacterial and fungi slime in the production of paper. AG-481 should be added at a point in the system to insure uniform mixing such as the Beater, Hydropulper or Fan or Broke Storage Pump. **DOSE:** Apply 0.02 to 0.09 kg of AG-481 as supplied per tonne (dry basis) of pulp or paper produced, as a slug dose. If needed repeat daily. Badly fouled systems should be cleaned before initial treatment. One litre of AG-481 weighs 1.25 kg.

**COOLING TOWERS:** AG-481 is recommended for the removal of slime from fouled towers. Add 0.036 to 1.0 kg of AG-481 as supplied per 10 tonnes of water in the system (equivalent to about 8 to 13 ppm active ingredient). This dosage should be repeated 2 to 3 times per week until fouling has been reduced to an acceptable level thus establishing microbial control. AG-481 should be added to the basin, to the distribution boxes or at any other point where it will be rapidly and uniformly dispersed throughout the system.

**PRECAUTIONS: DANGER:** Corrosive to eyes and causes skin burns. May cause allergic skin reaction. May be harmful if inhaled. May be fatal if swallowed or absorbed through the skin. Do not get into eyes, on skin or clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing vapour or mist. Do not take internally. Wash thoroughly after handling. Do NOT reuse container. Apply this product only as specified on label.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and wildlife. Do not discharge effluent containing this active ingredient into lakes, streams, ponds estuaries, oceans, or public waters.

### DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.

2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office of Environment Canada.
5. For small spills, recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS ABOVE.

FIRST AID INSTRUCTIONS:

IF IN EYES: Immediately flush with plenty of water for a least 15 minutes. Get immediate medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention. Remove and wash contaminated clothing before reuse.

IF SWALLOWED: DO NOT INDUCE VOMITING. Drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Seek medical attention with urgency. IF INHALED: Remove immediately to fresh air. If not breathing, apply artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed. Skin burns and corrosion may be delayed for several hours.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
