ABELL WACO LTD

DIRECTIONS FOR USE

CRACK AND CREVICE INJECTION USE ONLY FOR COCKROACHES, GERMAN,
AMERICAN, ORIENTAL, AND BROWN BANDED

WACO Prescription Treatment Spot Residual us for use only with
injection tube and for injection into cracks and crevices where
these insects may be hiding, living, breeding.

Place valve on valve stem and press down lightly making sure the
tip is pointing away from face and body.

Place injector tip 1 cm into cracks, crevices, holes and other
small openings where the above insects may be a problem. Release
approx. 1 second spray per spot. In serious infestation, if
possible, place spots approx 30 cm apart. In light infestation

or preventative treatment place spots approx. 1 meter apart.

Applications within food handling establishments (places other than private residences in which food is held processed, prepared or served) including restaurants, grocery stores, bakeries, bottling plants, canneries and grain mills: In food processing, preparing and servicing areas, use only during close down periods. Remove or cover all food, packaging materials and utensils before spraying. After spraying, wash all surfaces that may contact food and rinse thoroughly with potable water before re-use for food processing, preparation or serving.

In food warehouses, grocery stores and food storage areas do not spray food or food packages. Do not treat bins, bulk cargo areas or other places that may be directly contacted by food. Use only in a manner and in areas so as not to contaminate food.

Limited to crack and crevice treatment only - Apply a small amount of material directly into crack and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where cockroaches (German, American, Oriental, Brown Banded) hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

PRECAUTIONARY STATEMENTS: Keep out of reach of children. May be harmful if swallowed. May be absorbed through skin. May be injurious to eyes and skin. Do not take internally. Do not get in eyes, on skin or clothing. Wash thoroughly after handling. Wash contaminated clothing before re-use. Flush contaminated eyes with plenty of water and get prompt medical attention. Avoid breathing vapors and spray mist and provide adequate ventilation of area being treated. Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 56 °C may cause bursting. Never throw container into fire or incinerator. Wash dishes and food handling utensils thoroughly in soap and water if they become contaminated during application of the product.

ATTENTION: Do not apply water-base sprays of this product in conduits, motor housings, junction and switch boxes or other electrical equipment because of possible shock hazard. If there is a need to treat such areas use only oil-base sprays. Prior to application de-energize electrical equipment. After application allow time for oil to evaporate before starting motors or placing switches in the "on" position.

FIRST AID INSTRUCTIONS: If swallowed, induce vomiting. Get

medical attention. Flush contaminated eyes and skin with plenty of water and for eyes get medical attention.

TOXICOLOGICAL INFORMATION: chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. To physician-Atropine sulphate is antidotal.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NON-WARRANTY: Seller's guarantee shall be limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
