SIPHOTROL P.M. kills adult and pre-adult dog and cat fleas. It contains a unique combination of ingredients, pyrethrins and Precor. The pyrethrin kills adult fleas, American brown and American dog ticks, cockroaches, silverfish, crickets, ants, centipedes, sowbugs and spiders. Precor, an insect growth regulator, kills the pre-adult fleas present in the house for up to 210 days. It reaches fleas hidden in carpets, rugs, drapes, upholstery and pet bedding. Siphotrol P.M. leaves no bad smell, no sticky mess and will not stain furnishings.

DIRECTIONS FOR USE:
SHAKE WELL BEFORE USING.

Fleas and Ticks: Hold can 90 cm from surfaces to be treated. Be sure to apply uniformly using a sweeping motion to carpets, rugs, drapes and all surfaces of upholstered furniture. One can will treat a surface area equivalent to approximately five 3.0 m x 3.0 m rooms. Avoid wetting furniture and carpeting. Do not use as a space spray. Care should be used when treating wood surfaces, as water spotting may occur. A fine mist applied uniformly is all that is necessary to kill fleas and ticks. DO

NOT TREAT PETS WITH THIS PRODUCT. For effective flea and tick control, pets should be treated with a registered flea and tick control product designed for use on pets, and treatment of the pet should be combined with the sanitation of any area used by the pet. Vacuum floors, carpets, and furniture (discard vacuum bag after use) and wash the pet's bedding, living quarters, and surrounding areas prior to treatment with this product. Be sure to treat pet bedding and other resting places, as these are primary hiding places for fleas and ticks. No need to remove pet bedding after treatment. If pest problem persists, a second application 2-3 weeks after the initial treatment may be necessary. **DO NOT USE ON PETS.** To kill cockroaches, silverfish, crickets, ants, centipedes, sowbugs, and spiders, apply directly to pests.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN. May be harmful if swallowed or inhaled. Avoid contact with skin, eyes or clothing. Wash thoroughly after using. When used in the house, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Cover exposed food. Do not apply while processing, preparation, or serving is underway. Remove birds and cover fish aquariums before spraying.

FIRST AID - If swallowed - Call Physician or Poison Control Centre immediately. Product contains Petroleum Distillates - Do not induce vomiting. If on skin - Wash affected area with soap and water. If in eyes - Flush eyes with plenty of water. Call a physician if irritation persists.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

PHYSICAL HAZARDS - Contents under pressure. Do not use or store near heat or open flames. Exposure to temperatures above 50°C (122°F) may cause bursting. Do not puncture or incinerate.

STORAGE & DISPOSAL - Store in a cool area. When container is empty, press valve to release all remaining pressure. Wrap and discard empty container in household garbage.
