DIRECTIONS FOR USE:

Sanitizing of food processing equipment and other hard surfaces
in food contact locations

For sanitizing food processing equipment, dairy equipment, food
utensils, dishes, silverware, glasses, sink tops, countertops,

refrigerated storage and display equipment and other hard non-porous surfaces. No potable water rinse is required.

Wash and rinse all articles thoroughly, then apply a solution of 2 mL QT75 in 1 litre of water (150 ppm active). Surfaces should remain wet for at least 1 minute followed by adequate draining and air drying. Fresh solution should be prepared daily or when use solution becomes visibly dirty. For mechanical application, use solution may not be reused for sanitizing applications.

Apply to sink tops, counter tops, refrigerated storage and display equipment and other stationary hard surfaces by cloth, brush, or mechanical spray device. No potable water rinse is required. Dishes, silverware, glasses cooking utensils and other similar size food processing equipment can be sanitized by immersion in a 2 mL/L solution of QT75. No potable water rinse is required.

Disinfection in hospitals, nursing homes and other health care institutions and industries:

For disinfecting floors, walls, countertops, bathing areas, lavatories, tables, chairs, garbage pails and other hard non-porous surfaces.

Add 6 mL QT75 to 1 litre water. Apply to previously cleaned hard surfaces. Apply with a cloth or mop. Treated surfaces must remain wet for 10 minutes. Fresh solution should be prepared daily or when the use solution becomes visibly dirty.

At this use level, QT75 is effective against *Pseudomonas aeruginosa*, *Staphylococcus aureus* and *Salmonella choleraesuis* in the presence of 5% blood serum when evaluated by the AOAC Use-Dilution Test.

All equipment treated at the rate of 6.0ml/L of water, that will contact food or drinking water must be rinsed with potable water before reuse.

PRECAUTIONARY STATEMENTS:

KEEP OUT OF REACH OF CHILDREN. Danger: Corrosive to eyes. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against

circulatory shock, respiratory depression and convulsion may be needed.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Environment Canada.
5. For small spills. Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN NO. 4.
