MR ROACHKILLER
ROACH CONTROL SYSTEM
Made in Canada

MR. ROACHKILLER

DIRECTIONS FOR USE:

FOR EFFECTIVE COCKROACH CONTROL, USE 5 per 10 square meters.

- Peel off back to expose adhesive strip and stick on horizontal or vertical surface.

- Use 5 per 10 square meters of surface area (including shelf

surfaces) to be treated. Putting MR. ROACHKILLER bait stations in the right places is the key to success. You must place them in areas where cockroaches live, feed or travel but which are not accessible to children and pets.

- In dark, warm, damp places - conditions usually found in kitchens, bathrooms and basements, in corners and along edges where walls meet ceilings and floors, in cabinets, closets, on shelving, under and behind appliances and furniture.

- In dropped ceilings and wall spaces.

- Wherever food is available to cockroaches: around food containers, where crumbs and spills occur and around garbage containers.

- near cockroach entry points and travel routes - water and drain pipes, cracks and crevices.

- Never put the bait stations in broad, open areas.

PRECAUTIONS:

- KEEP OUT OF REACH OF CHILDREN. PLACE BAIT STATIONS IN AREAS NOT ACCESSIBLE TO CHILDREN AND PETS.

- Avoid contamination of food and feed.

- Do not place directly over food, utensils, dishes or food preparation surfaces.

- Do not remove bait from stations.

- May be harmful if swallowed.

- For best results place baits as shown.

For best results place all 12 baits at a time

FIRST AID INSTRUCTIONS:

If bait station content is swallowed: Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention.

DISPOSAL:

- Do not contaminate water through improper disposal.

- Discard used containers in garbage.

RECOMMENDED USE

1. Apartment... 12
2. House... 24
3. House with 2 kitchens... 36

ROACH CONTROL SYSTEM

Guarantee: 33.3% Boric Acid

REGISTRATION NO. 23753 PEST CONTROL PRODUCTS ACT

DOMESTIC, READ THE LABEL AND BOX INSERT BEFORE USING.

MR. ROACHKILLER stations are totally unique and contain an odorless insecticide.

- KEEP OUT OF REACH OF CHILDREN. PLACE BAIT STATIONS IN AREAS NOT ACCESSIBLE TO CHILDREN AND PETS.

DIRECTIONS FOR HOUSEHOLD USE

1. Open container.
2. Use five (5) MR. ROACHKILLER bait stations per 10 square metres (100 square feet). Remove adhesive backing and affix bait station to surface.
3. Putting MR. ROACHKILLER bait stations in the right location is the key to success. You must place bait stations in areas not accessible to children but near where cockroaches typically, live, feed or travel.

- In dark, warm, damp places - conditions usually found in kitchens, bathrooms and basements, in corners and along edges where walls meet ceilings and floors, in cabinets, closets, on shelving, under and behind appliances and furniture.

- In dropped ceilings and wall spaces.

Wherever food is available to cockroaches - around food

containers, where crumbs and spills occur, and around garbage containers.

- Near cockroach entry points and travel routes - water and drain pipes, cracks and crevices.
4. Cockroaches die in out-of-the-way places within 4 to 6 days after feeding on the bait. Due to the nature of the product and pest, elimination of cockroaches may be slow. If satisfactory results are not achieved within one (1) month, consider additional stations and/or locations.
 5. Replace all bait stations every two (2) months or sooner, if required to maintain control.

PRECAUTIONS

- KEEP OUT OF REACH OF CHILDREN. PLACE BAIT STATIONS IN AREAS NOT ACCESSIBLE TO CHILDREN AND PETS.
- Do not remove bait from stations.
- Do not contaminate food, feed or utensils.
- Do not place over food or food preparation surfaces.

FIRST AID INSTRUCTIONS

If bait station content is swallowed, drink one or two glasses of water and induce vomiting by touching back of throat with finger.

DISPOSAL

- Do not contaminate water through improper disposal.
- Discard used container in garbage.
