DIRECTIONS FOR USE:

HORNET & WASP CONTROL: Best results are obtained when applications are made in the early morning or in the evening when the pests are inside, or congregating around the nest. Aim directly into nest openings or apply around areas where the insects gain entrance. Apply until surface is wet. Hornets and wasps are aggressive insects, especially when disturbed. Spray them when they are at rest or when direct hits are assured. Do not attempt to spray hornets or wasps on the wing.

ANT CONTROL: Spray hills and runways.

OUTDOORS USES: To control Brown Dog Ticks, Clover Mites, Crickets, Earwigs, Fleas, Flies, Biting Midges, Millepedes, Mosquitoes, Sowbugs. Spray infested areas thoroughly including outdoor screens, doors, window frames, foundations, patios or other places where insect may enter.

PRECAUTIONS: DANGER – EXTREMELY FLAMMABLE. Do not use in presence of open flame or spark. **KEEP OUT OF REACH OF CHILDREN OR PETS.** Never set container on stove or radiator, nor place it where the temperature will exceed 50⁰C. Do not puncture or throw the container into fire. May be harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing the spray mist. Avoid contact with skin, eyes or clothing. Wash with soap and warm water after handling.

TOXICOLOGICAL INFORMATION: Atropine Sulphate is antidotal.

FIRST AID:

IF SWALLOWED, DO NOT induce vomiting. Contains petroleum distillate. If use results in illness, call poison control centre and get prompt medical aid **IMMEDIATELY.**

IF IN EYES, flush with water for 15 minutes and get medical attention.

IF ON SKIN, wash with soap and water.

Take container, label or product name and P.C.P. Registration Number with you when seeking medical attention.

DISPOSAL: When container is empty, press button to release all pressure. Do not throw into fire. Wrap container and dispose of with household garbage.
