((OUTER CARTON - BACK))

TIP "N" MEASURE USE INSTRUCTIONS:

Diagram

1. Measure

Tilt container to angle as shown and fill head to desired amount:
- use vertical scale for measuring. Container should be closed.

Diagram

2. Adjust

Tilting the container as shown will return material to the main container. The amount remaining can be accurately measured against the pour-back scale.

Diagram

3. Pour

Remove cap on head and pour into sprayer, spritzer or other devices. No fluid will pour from the main container. Replace cap for storage in sealed condition.

PRECAUTIONS:

KEEP OUT OF THE REACH OF CHILDREN. Harmful if swallowed. Avoid contact with skin and eyes and inhalation of spray mist. Wash thoroughly after handling. Avoid contamination of food and feed. Do not store product near food or feed. Do not spray on humans or pets. Remove all animals, fish and birds before spraying.

NOTE: Do not use in preparing oil-base sprays; must be diluted with water.

DISPOSAL:

Dispose of empty container in household garbage. Do not reuse container.

FIRST AID:

If swallowed induce vomiting. Obtain prompt medical attention or call a Poison Control Centre. If on skin - Wash thoroughly with soap and water. If in eyes - flush with plenty of clear water and obtain medical attention.

TOXICOLOGICAL INFORMATION:

Atropine is antidotal.

For knockdown and residual control of pests listed below.

In sprayers use 50 mesh screens or coarser. Freezable. Store above 0°C.

DIRECTIONS FOR USE:

Dilute DICAP(R) at the rate of 40 mL per L of water. Shake sprayer occasionally to assure even coverage. Treatments should be repeated as necessary.

Cockroaches, Ants, Silverfish, Earwigs: Make spot applications as a coarse spray or with a paint brush to baseboards, areas around water pipes, cracks and crevices, surfaces behind and beneath cabinets, refrigerators, stoves and similar areas where insects hide.

Carpet Beetles: Spot spray along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving and wherever the insects are seen or suspected.

Brown Dog Ticks, Fleas In Buildings: Spray infested areas around baseboards, windows and door frames, wall cracks, sleeping quarters of pets and localized areas of floors and floor coverings. Fresh bedding should be placed in animal quarters following treatment. DO NOT TREAT ANIMALS WITH DICAP(R).

Clover Mites And Spiders: Spray window and door frames and sills, baseboards and floor adjacent to them, especially cracks and crevices. Spot spray other areas over which these pests may crawl.

Flies: Add 20 g sugar per L of spray. Treat ceilings, walls, window frames, etc., where flies congregate.

PRECAUTIONS:

KEEP OUT OF THE REACH OF CHILDREN. Harmful if swallowed. Avoid contact with skin and eyes and inhalation of spray mist. Wash thoroughly after handling. Avoid contamination of food and feed. Do not store product near food or feed. Do not spray on humans or pets. Remove all animals, fish and birds before spraying. NOTE: Do not use in preparing oil-base sprays; must be diluted with water.

DISPOSAL:

Dispose of empty container in household garbage. Do not reuse container.

FIRST AID:

If swallowed induce vomiting. Obtain prompt medical attention or call a Poison Control Centre. If on skin - Wash thoroughly with soap and water. If in eyes - Flush with plenty of clear water and obtain medical attention.
