Each marking represents 50 mL

CONTROLS/DESTROYS ALGAE IN SWIMMING POOL WATER

DIRECTIONS FOR USE

For best results, pool should be free of algae before adding SUN (R) Multi-Purpose Algaecide. Allow the filter to run for at least six (6) hours after adding algaecide. During this period, swimmers should not be allowed in the water. Add Multi-Purpose Algaecide directly to pool around the entire inside perimeter of pool.

Initial dosage for pool water having no visible algae is 200 mL of Sun Multi-Purpose Algaecide per 10,000 L of pool water.

Weekly maintenance dosage is 100 mL of Sun Multi-Purpose Algaecide per 10,000 L of pool water.

For pool water having visible algae, superchlorinate following label instructions of superchlorination product employed and wait at least 24 hours before adding weekly maintenance dosage.

For visible algae, when superchlorination is not employed, add 500 mL of Sun Multi-Purpose Algaecide per 10,000 L of pool water.

PRECAUTIONS

Keep out of reach of children. Harmful if swallowed. Do not mix with any other chemical. Avoid contact with skin and eyes. Rinse container thoroughly before discarding. Do not reuse.

For information on the disposal of unused, unwanted product and cleanup of spills, contact your municipality, your provincial Ministry of Environment or the regional office of Environment Canada.

FIRST AID

If splashed in eyes or on skin, flush thoroughly with water for 15 minutes. For eye contact, get medical attention. If swallowed, drink 2 or 3 glasses of milk or water. Call a physician or poison control centre immediately.
