COMCOR CHEMICALS LIMITED
1035 Derwent Way
Annacis Island, New Westminster, BC V3M 5R4
(604) 521-4818

DIRECTIONS FOR USE

Prior to use of the product in water cooling towers, systems

should be cleaned to remove algal growth, microbial slimes, and other deposits, then make initial slug addition of 0.5 L - 1.0 L per 10,000 L of water in the system. Repeat initial dosage until control is evident.

Make subsequent slug additions of 0.15 L - 1.0 L per 10,000 L of water every 1-5 days or as needed. The frequency of addition depends upon the relative amount of bleed-off and the severity of the microbiological problems. Slug additions should be made in the sump of the cooling towers.

CAUTION

Harmful if swallowed. When handling the product, wear rubber gloves, goggles and avoid contact of the product with skin, eyes and clothing. After any exposure and/or contact, wash promptly and thoroughly with an abrasive soap, plenty of water and finally with glycerin. Keep the container closed when not in use. Do not re-use container. Destroy when empty.

FIRST AID

If swallowed, call a physician immediately. Give patient doses of powdered charcoal immediately or all the raw egg whites, milk, gruel, or flour and water he can swallow, then induce vomiting. In case of persistent irritation of the skin, obtain medical attention. If the product gets into the eyes, flood eyes immediately and thoroughly with cool water for 15-30 minutes. See a physician if any irritation persists.

NOTICE TO USER

This control product is to be used only in accordance with the directions on this label. It is an offence under the PEST CONTROL PRODUCTS ACT to use a control product under unsafe conditions.

DISPOSAL

1. Rinse the emptied container thoroughly and add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.

4. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office of Conservation and Protection Service, Environment Canada.
5. For small spills, recover free liquid and soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN #4.

Corrosive Material
Avoid Contact with Skin and Eyes
Very Toxic Material
Wear Suitable Protective Clothing
