QUAVO PLUS II

DETERGENT GERMICIDE LIQUIDE CONCENTRE

GERMICIDAL DETERGENT LIQUID CONCENTRATE

Fongicide-détruit Staphylococcus - Salmonella
- Pseudomonas - Virucide

Staphylocidal - Salmonellacidal - Pseudomonacidal
Fungicidal - Virucidal

GARANTIE:

Chlorure d'ammonium octylique décyclique diméthylrique...	2.034%
Chlorure d'ammonium dioctylique diméthylrique.....	0.814%
Chlorure d'ammonium didécyclique diméthylrique.....	1.221%
Chlorure d'ammonium alkylique (40% C12, 50% C14, 10% C16) diméthyl benzylique.....	2.713%

GUARANTEE:

Octyl decyl dimethyl ammonium chloride.....	2.034%
Dioctyl dimethyl ammonium chloride.....	0.814%
Didecyl dimethyl ammonium chloride.....	1.221%
Alkyl (40% C12, 50% C14, 10% C16) dimethyl benzyl ammonium chloride.....	2.713%

ATTENTION: Les surfaces qui entrent directement en contact avec
les aliments doivent être bien rincées à l'eau potable.

CAUTION: Surfaces subject to direct food contact should be
adequately rinsed with potable water.

From Coast to Coast

QUAVO PLUS II is Dustbane's newest generation of quaternary one-step disinfectant-cleaners. In addition, QUAVO PLUS II is an effective sanitizer, virucide, fungicide and mildew-stat. To simulate actual use conditions, QUAVO PLUS II has been tested in hard water (400 ppm) and in the presence of a 5% serum contamination.

QUAVO PLUS II may be used on all washable surfaces including floors, walls, furniture, porcelain, basins, toilets, sinks, counter-tops and garbage pails. QUAVO PLUS II is intended for use in hospitals, nursing homes, institutions, schools, restaurants, office buildings, factories and food processing plants.

DIRECTIONS FOR USE:

DISINFECTION: When mixed with potable water at a rate of 13 mL/L (1:80, 2 oz./gal.), QUAVO PLUS II is an effective disinfectant, fungicide and virucide. AOAC "Use Dilution Tests" have proven QUAVO PLUS II effective against *Pseudomonas aeruginosa*, *Salmonella choleraesuis* and *Staphylococcus aureus*. AOAC fungicidal tests were performed using *Trichophyton mentagrophyte* as the test species. Virucidal properties were determined using Influenza A/Brazil, Vaccinia and Herpes Simplex, types I and II.

Apply the solution (13 mL/L) of QUAVO PLUS II using a sponge, mop or cloth and allow the treated surfaces to remain wet for 10 minutes. Rinsing is not required for non-food contact areas. Surfaces subject to direct food contact should be adequately rinsed with potable water. Heavily soiled surfaces may require a pre-cleaning step.

SANITIZING: When mixed with potable water at a rate of 4 mL/L (1:250), QUAVO PLUS II effectively sanitizes non-porous non-food contact areas. Allow treated surfaces to remain wet for 60 seconds.

MOLD AND MILDEW: When mixed at a rate of 13 mL/L, QUAVO PLUS II effectively inhibits the growth of mold and mildew. Apply the solution and allow it to dry on the treated surface. Repeat when mildew growth returns.

HIV-1: QUAVO PLUS II may be used for cleaning and decontamination of hard surfaces exposed to blood or other body fluids that contain HIV-1 (Human Immunodeficiency Virus). Thoroughly clean all hard surfaces, removing blood and body fluids prior to disinfection. Apply QUAVO PLUS II in accordance with the directions given for disinfection above. Wear protective clothing including latex gloves, gown, mask and eye goggles. Blood, body fluids, cleaning materials and clothing should be autoclaved and disposed of according to local regulations.

PRECAUTION: Keep out of the reach of children. Danger - corrosive to eyes. Do not get in eyes, on skin or on clothing. Wear protective gloves and safety glasses when handling concentrate. Harmful if swallowed. Avoid contamination of food.

FIRST AID: If splashed in eyes or on skin, flush with water for 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing. If swallowed, promptly drink large quantities of milk, egg whites, gelatin or if these are not available, water. Avoid alcohol. Call a physician immediately.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings

- to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container and its disposal or reconditioning.
 3. Dispose of the container in accordance with provincial requirements.
 4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Environment Canada.
 5. For small spills. Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN #4.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
