LATER'S WEED-ALL Pressurized Spray is ideal for spot-treatment of lawns. It will control Chickweed, Clover, Dandelion, Plantain, Ragweed, and Shepherd's purse.

If overall spraying is required, use LATER'S WEED-ALL LIQUID

according to the label.

DIRECTIONS FOR USE:

Shake well before using. For best results, apply in the spring or fall when weeds are actively growing. DO NOT WATER THE LAWN within 24 hours of application. Overspraying is wasteful, only short discharges are necessary. Three to four weeks may be needed for complete kill of weeds. Repeat the treatment in 3-4 weeks if necessary.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid contact with skin, eyes, and clothing. Wash hands after use. Keep spray from drifting onto susceptible plants. May cause injury to or kill bent grass. When treating weeds, take care not to spray surrounding grasses unless the browning of these grasses can be tolerated. Clover, dichondra and certain other grasses are sensitive to herbicides and may be injured by the use of this product. Avoid spraying or spattering nearby flowers and other desirable plants. Do not store near feeds, fertilizers, insecticides, or fungicides. Do not store where the temperature is above 50'C. Protect from freezing. Do not puncture or incinerate the container. Do not contaminate streams, lakes or ponds.

FIRST AID: If on skin or in eyes, flush with plenty of water. Call a doctor in the case of an accidental poisoning.

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
