Billings, Montana
59103

At 1525 Lockwood Rd.
Billings, MT
59101

This product is to be used only in formulating registered herbicides.

SAFETY PRECAUTIONS

Keep out of the reach of children. Harmful if swallowed or

inhaled. Avoid contact with skin, eyes or clothing.

SYMPTOMS OF POISONING: Irritation of the skin following excessive contact with product may occur. Protracted inhalation of spray may cause irritation to nose, eyes, and throat causing burning sensation and cough.

When ingested, material irritates the mouth and throat and usually causes enough gastrointestinal irritation to induce prompt vomiting. Absorption of large quantities may produce muscle twitching, tenderness and stiffness.

FIRST AID INSTRUCTIONS: If on skin, remove contaminated clothing and wash with copious amounts of soap and water. If in eyes, flush with water for at least 15 minutes. If swallowed do NOT induce vomiting, immediately move patient to nearest hospital, taking this label with you.

TOXICOLOGICAL INFORMATION: NOTICE TO PHYSICIAN

There is no specific antidote. If material is ingested, empty stomach by intubation, aspiration and lavage with isotonic saline or sodium bicarbonate. Administer or instill 30 grams of activated charcoal in 100 mL of water to limit absorption or remaining material.

PROCEDURES FOR HANDLING SPILLS OR CONTAINER BREAKAGE.

Wear appropriate protective equipment to avoid contact with skin, eyes, nose and clothing during clean-up procedures. These include rubber or neoprene gloves and boots, impervious apron or suit, and respirator. After clean-up complete, individuals should shower well and dress in clean clothes. Launder well any garments which were used during clean-up.

For liquid spills, surround and cover the spill with absorbent material, such as sawdust, talc or clay, and allow to stand. After one hour collect with shovel and place into a container for disposal by burying. Take containers to acceptable sanitary land fill dump in accordance with municipal requirements. Do not contaminate water, food or feed by storage or disposal of containers or decontamination materials.

For additional details on disposal of containers, unused product or decontamination materials, contact the regional office of the Environmental Protection Service, Ministry of the Environment.
