MANUFACTURED BY  
SANEX INC.

2695 SLOUGH STREET, MISSISSAUGA, ONTARIO L4T 1G2

A premium grade ready to use insecticide solution for use in thermal foggers for the outdoor control of mosquitoes, blackflies, gnats, and other small flying insects.

DIRECTIONS:

For most effective treatment apply as a dense fog close to the ground at the rate of 700 mL-1.5 L per hectare or 6-12.5 mL per 100 m<sup>2</sup>. Fogging should be done in early morning or late evening when the air is calm. When using a thermal fog generator, the equipment must be operated and maintained in the manner prescribed in the instructions affixed to it and by the manufacturer's manual. Repeat treatment during the season as often as necessary to control adult biting insects.

PRECAUTIONS:

Avoid inhaling spray mist. Avoid contact with skin, eyes and clothing. Avoid contamination of feed and food. Do not contaminate mangers, drinking troughs or utensils. Wash after handling or using. Avoid contamination of ponds, lakes, streams and other bodies of water which contain fish life or which may be used for irrigation or domestic purposes. Care should be taken in disposing of empty containers. Keep out of reach of children and pets.

FIRST AID:

For external contact, wash with soap and water. If in eyes, flush with plenty of water. If swallowed, cause vomiting by giving a tablespoon of salt in a glass of warm water. Repeat until vomiting fluid is clear. Obtain medical attention.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

LIMITATION OF WARRANTY:

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
