SUPER CONCENTRATED DISINFECTANT CLEANER

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

ENDBAC 256 is a super concentrated multi-purpose disinfectant cleaner and deodorant specifically formulated for hospital, food plant, institutional and industrial use. It is an effective bactericide, virucide and fungicide in the presence of 400 ppm

hard water (as CaCO<sub>3</sub>) plus 5% blood serum at a 1:256 dilution (AOAC Use Dilution Test).

BACTERICIDAL Proven effective in destroying (in the official A.O.A.C. Use-Dilution test for germicides) the following pathogenic bacteria: *Pseudomonas aeruginosa*, *Salmonella choleraesuis*, *Staphylococcus aureus*, *Staphylococcus aureus* (methicillin-resistant strain - MRSA), *Escherichia coli* (0157:H7), *Klebsiella pneumoniae*, *Listeria monocytogenes*, *Proteus mirabilis*, *Proteus vulgaris*, *Salmonella enteritidis*, *Salmonella pullorum*, *Salmonella typhi*, *Serratia marcescens*, *Streptococcus agalactiae*, *Streptococcus faecalis*, *Streptococcus pyogenes*.

VIRUCIDAL against H.I.V.-1\*, Influenza A2/Hong Kong virus, Adenovirus Type 2, Herpes simplex Type 1, and Herpes Simplex Type 2, on hard non-porous surfaces.

FUNGICIDAL Destroys *Candida albicans*, *Aspergillus niger* and *Trichophyton mentagrophytes* on hard non-porous surfaces.

DIRECTIONS FOR USE: Dilute 1 part product with 256 parts water (4ml/Litre = 660 ppm quaternary). Mop floor. For walls, woodwork and equipment, use a sponge or a cloth. Treated surfaces must remain wet for 10 minutes. A potable water rinse is necessary following treatment of food contact surfaces. Not for use in dishwashing. Recommended for hard non-porous surface disinfection in all areas of hospitals, nursing homes and food plants.

For heavily soiled areas, a pre-cleaning step is required prior to disinfection.

\*H.I.V. DISINFECTION: ENDBAC 256 is effective against H.I.V. (Human Immunodeficiency Virus) in situations where contamination by blood or body fluids is likely. Personnel involved in such procedures should wear appropriate barrier protection (i.e. glove, gowns, masks, etc.). A 1:256 dilution of ENDBAC 256 inactivates H.I.V. after a one minute contact time. Blood and body fluids must be thoroughly cleaned from surfaces prior to application of disinfectant.

Disposal of blood and body fluids and contaminated cleaning materials should comply with hospital recommended procedures for disposal of infectious waste.

#### DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial/territorial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.

3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the provincial/territorial Regulatory Agency or SC Johnson Professional.

DO NOT STORE IN FOOD PROCESSING AREAS OR FOOD STORAGE AREAS.

KEEP FROM FREEZING

Questions? Comments: Write Customer Service Department, SC Johnson Professional, 1 Webster Street, Brantford, Ont., N3T 5R1

WHMIS Classification: Exempt  
regulated under Food & Drug Act and P.C.P. Act.

ENDBAC 256 SUPER CONCENTRATED DISINFECTANT CLEANER

PRECAUTIONS: Keep out of reach of children. Corrosive. Causes irreversible eye and severe skin damage. Harmful or fatal if swallowed or inhaled. Do not get in eyes, on skin or clothing. Do not inhale vapors. When handling the concentrate, wear eye goggles, chemical resistant gloves and aprons and long sleeved shirts and pants. Promptly decontaminate footwear. Use only in well ventilated areas. Avoid contamination of food. When handling diluted product, wear impermeable gloves.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 20 minutes. Following eye flush, call a physician. Remove and wash contaminated clothing before re-use. If swallowed, do not induce vomiting, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call physician immediately.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage.

See Material Safety Data Sheet.
