

WINTER SHOCK

POOL TREATMENT

STABILIZED CHLORINATING GRANULES

CONTROLS BACTERIA AND ALGAE in  
Swimming Pool Waters

DOMESTIC

REG. NO. 28307 P.C.P. ACT

GUARANTEE:

Sodium Dichloro-s-Triazinetrione.....44%  
Available Chlorine Content.....27%

READ THE LABEL BEFORE USING

KEEP OUT OF REACH OF CHILDREN

Calypso, 42, rue de l'Artisan  
Victoriaville, Québec, Canada G6P 7E3

**DIRECTIONS FOR USE:**

1. Maintain proper daily levels as determined by testing kit.  
Free available chlorine: 1.0 – 3.0 ppm  
pH: 7.2 – 7.8  
Total alkalinity: 80 – 120 ppm  
Calcium hardness: 200 – 300 ppm
2. For outdoor pools, chlorine residuals can be protected from destruction by the sun's rays by adding 300 g of stabilizer (cyanuric acid) per 10,000 L of pool water to yield the required initial concentration of 30 ppm.
3. Maintain proper chlorine residual by adding daily over the pool's surface, 91 g of WINTER SHOCK POOL TREATMENT per 10,000 L of pool water, or as needed.  
NOTE: Hot weather, heavy pool usage and rain may require higher usage rates to maintain proper chlorine residuals.
4. Periodic superchlorination of pool water is recommended. Follow label instructions of superchlorination product employed.
5. WINTER SHOCK POOL TREATMENT contains cyanuric acid stabilizer which can accumulate in pool water. Keep stabilizer within the recommended range of 30-100 ppm by dilution with fresh water.
6. While WINTER SHOCK POOL TREATMENT can be used for superchlorination by using 410 g per 10,000 L of pool water, care must be taken to avoid excessive accumulation of stabilizer.

**PRECAUTIONS:**

KEEP OUT OF REACH OF CHILDREN. Strong oxidizing agent. May cause fire or explosion if contaminated. Dangerous gas formed when mixed with acid. Do not mix with any other chemical. Avoid contact with skin and eyes. Harmful if swallowed. Keep container closed and store in a cool, dry location.

**DISPOSAL:**

Do not reuse empty container. Wrap and dispose of empty container with household garbage. For information on disposal of unused, unwanted product, contact the manufacturer or the Provincial Regulatory Agency. Contact the manufacturer and the Provincial Regulatory Agency in case of a spill, and for clean-up of spills.

**FIRST AID:**

If splashed in eyes or on skin, flush thoroughly with water for 15 minutes. For eye contact, get medical attention. If swallowed, drink one glass of milk or water. Call a physician or Poison Control Centre IMMEDIATELY. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:**

Treat symptomatically.
