

**DIRECTIONS FOR USE:**

For use in the manufacture of nonfood contact materials. This product may be used to control and reduce microorganism levels which have contaminated formulating materials of the material system. Biochek 20 may prevent the need for disposal of contaminated systems. Biochek 20 will provide short-term preservation (3 months approximately) to the component of the formulation to which it is added. Biochek 20 can be added to emulsions, suspensions and slurries used during manufacturing of plants, latex, emulsions, adhesives, joint compounds, waxes, polishes and inks. Add Biochek 20 at a rate of 0.01% to 0.10% wt/wt of the formulation depending on the severity of the contamination and the type of product.

Other material preservatives will be required for long term preservation of the manufactured product. Laboratory testing and use experience show Biochek 20 is effective when applied at the specified range of concentration. The exact amount necessary for the preservation of any given formulation will depend on the components, storage time, temperature and degree of contamination etc.

TYPICAL USE LEVELS

Laboratory testing and customer use show Biochek 20 is typically effective when applied at concentrations shown below. The exact amount necessary for the preservation of any given formulation will depend on the components, storage time, temperature, etc. and can be determined by actual testing. All concentrations are based on the total formulation weight.

EFFECTIVE CONCENTRATION

Latex Emulsions.....0.01-0.1%
 Adhesives.....0.01-0.1%
 Waxes, Polishes and Ink.....0.01-0.1%
 Pigment Slurries.....0.01-0.1%
 Aqueous Paints and Coatings.....0.01-0.1%
 Joint Compounds.....0.01-0.1%

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the *Pest Control Products Act* to use a control product under unsafe conditions.

BIOCHEK 20

CONTROLS THE GROWTH OF MICROORGANISMS IN EMULSIONS, COATINGS, WAXES, POLISHES, SIZING CAULK, ADHESIVES, PIGMENT SLURRIES

PRECAUTIONS:

DANGER. KEEP OUT OF REACH OF CHILDREN. DANGER IF CONTACTED, CAUSES SEVERE BURNS TO EYES. EYE CONTACT MAY CAUSE LOSS OF VISION. Contact with skin may cause chemical burns. May be harmful for fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Do not inhale vapour or mist. Keep container closed when not in use. Use only in a well ventilated area. Immediately remove and wash contaminated clothing before reuse. Wash thoroughly after handling.

FIRST AID:

IF SWALLOWED: Call a physician or contact a poison control centre IMMEDIATELY. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger or, if available, by administering syrup of ipecac. Do not induce vomiting or give anything by mouth to an unconscious person. IF INHALED: Remove person to fresh air IMMEDIATELY, if irritation or difficulty breathing occurs. If not breathing apply artificial respiration. If breathing is difficult, give oxygen. Call a physician or poison control centre IMMEDIATELY if irritation or discomfort persists. IN CASE OF CONTACT WITH SKIN: Wash thoroughly with soap and water. Remove and wash contaminated clothing before reuse. IN CASE OF CONTACT WITH EYES: Flush with plenty of water for at least 15 minutes. Call a physician or poison control centre IMMEDIATELY. Take container, label or product name and Pest Control Product registration number with you when seeking medical attention.

DISPOSAL:

For Porta-Feed System: 1. Close valve. 2. The Porta-Feed System may be returned to the point of purchase (distributor/dealer). It must be refilled by the distributor/dealer with the same product. Do not reuse the Porta-Feed System for any other purpose. For Other Containers: 1. Triple – or pressure – rinse the emptied container. Add the rinsings to the treatment site. 2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal. 3. Make the empty container unsuitable for further use. 4. Dispose of the container in accordance with provincial requirements. 5. For information on the disposal of unused, unwanted product, contact the Provincial Regulatory Agency or the manufacturer. Contact the Manufacturer and the Provincial Regulatory Agency in case of spill and for cleanup of spills.

STORAGE AND HANDLING

Do not contaminate water, food, or feed by storage or disposal. To maintain product quality, store at temperatures below 35 deg. C. Keep container tightly closed when not in use. KEEP FROM FREEZING.
