Concord, Ontario
L4K 1B2

Trees, shrubs and bushes are injured by passing vehicles, wind, falling objects and vandalism. Such cuts and abrasions require prompt treatment to prevent infection.

K-G Tree Wound Dressing is specifically formulated to act as a protective coating and sealing agent against moisture, woodrot disease, and wood-boring insects.

Used as directed, K-G Tree Wound Dressing is a fast, easy and effective sealing compound. Offering excellent protection for rose bush, evergreen, shrub pruning and grafting. Effective moisture barrier in planters, pots, tubs, etc.

DIRECTIONS FOR USE : Rough edges to be cut cleanly. Larger limbs removed at trunk. Shake can well. Remove cap. Hold upright. Point valve toward surface to be sprayed 30 cm away. Spray entire surface uniformly. Avoid over spray. Staining will occur.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat, or store at temperatures over 50°C. Do not use in presence of open flame or spark. Use in well ventilated area.

FIRST AID TREATMENT: Avoid breathing vapor and contact with skin or eyes. Exposure may result in irritation of eyes or lungs. If symptoms occur, move to fresh air. If symptoms persist, see a physician, or contact poison control centre IMMEDIATELY. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: When container is empty, press valve to release all remaining pressure. Wrap and discard empty container in household garbage. Do not puncture or incinerate.
