1295 EGLINTON AVENUE EAST, UNIT 11
MISSISSAUGA, ONTARIO
L4W 3E6

For use as a spot or crack and crevice treatment to control
insects listed on front panel.

INDOOR USE: Thoroughly treat cracks, crevices, baseboards,
underneath furniture and equipment, around garbage containers,
localized areas or spots of floors and floor coverings and other
places where insects are seen.

OUTDOOR USE: Spray outside surfaces of screens, doors, window frames, foundations, light fixtures, around patios and other places where insects may alight or congregate and enter.

DIRECTIONS: Hold container approximately 30 cm. from surface being sprayed and spray until wet. Thorough applications produce a coating which will vapourize into cracks and crevices for insect control. If reinfestations occur, repeat applications as necessary. Provide adequate ventilation during and after indoor use. KEEP PETS AND CHILDREN AWAY FROM SURFACE UNTIL DRY.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes, skin, or clothing. DO NOT USE ON HUMANS, PLANTS, ANIMALS, FISHBOWLS OR ANIMAL FEED AREAS. DO NOT USE AS A SPACE SPRAY. Wash hands after use. Do not inhale spray mist. Do not contaminate food or food preparation surfaces. Contents under pressure. Do not place in hot water or near radiators, stove or other sources of heat, or store at temperatures over 50 C. Do not spray near open flame or spark.

FIRST AID TREATMENT: Contains volatile petroleum distillate. If swallowed, do not induce vomiting. Call physician immediately. Diazinon is a cholinesterase inhibitor. Atropine is antidotal. In case of contact with the skin, wash with soap and water. If in eyes, flush with water 15 minutes, get medical attention.

DISPOSAL: When container is empty, press button to release all pressures, then dispose in household garbage. Do not puncture or incinerate.
