CORROSIVE - DANGEROUS GAS FORMED WHEN MIXED WITH ACID

LES PRODUITS PAQUET ENR.

86 RUE DES EPINETTES, (STE-ODILE) QUEBEC G1L 1N5

Total daily CHLORO-12 Charge	Pool capacity (in Liters)
125 mL - 250 mL	10,000 L
325 mL - 526 mL	25,000 L
625 mL - 1.25 L	50,000 L
1.25 L - 2.50 L	100,000 L
3.25 L - 6.25 L	250,000 L

USES: For general sanitation, disinfection, bleaching use 6 mL CHLORO-12 per liter water.

FOR SAFE SANITARY SWIMMING & WADING POOL WATER: Add the correct amount of CHLORO-12 to the water daily.

RECOMMENDED APPLICATION GUIDE SEE THE ABOVE GUIDE - TOTAL DAILY CHARGE AND POOL CAPACITY.

NOTE: First application should be double the indicated amount.

CAUTION: Before adding any CHLORO-12 to pool, adjust p.H. to 7.2 - 7.6, add Muriatic Acid if high, and Soda Ash if low.

CHLORINE TESTING: Use of a test kit to measure the available chlorine is recommended. Test kits are available from your pool supply Distributor.

AVAILABLE CHLORINE: The disinfecting power of CHLORO-12 in the pool is measured in parts per million of available chlorine (p.p.m. Cl₂). For safe pool water, the desirable level of available chlorine is 0.6 to 1.0 p.p.m.

INSTRUCTIONS FOR USE: Dilute CHLORO-12 as necessary to obtain required p.p.m. Cl₂. Rinse thoroughly with potable water all treated surfaces which may come into contact with food products.

Store in a cool dark place. This product will not be affected by freezing.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

CAUTION: Keep out of reach of children. Do not use CHLORO-12 on silk, wool, mohair, lycra, unfast colors, leather, aluminium, silverware. Avoid contact with skin and eyes. Do not mix toilet bowl cleaner, rust remover, household ammonia or acids.

FIRST AID TREATMENT: Contains sodium hypochlorite. If splashed in eyes or on skin, flush thoroughly with water. If swallowed, give one or two glasses of milk or warm water. Call physician immediately. Keep patient warm.
