DIRECTIONS FOR USE

GENERAL INFORMATION: CORN OIL CONCENTRATE is a blend of a surfactant and a superior-type agricultural spray oil designed for use with Atrazine sprays.

USE PRECAUTIONS: Care should be exercised when CORN OIL CONCENTRATE is applied to new varieties or highly inbred lines of corn not previously treated with spray tank adjuvants. It is recommended that small test areas be treated before undertaking large scale application. Care is recommended when sprays are

applied under very hot, humid conditions, cold weather, frost or under circumstances when Atrazine tends to be more active. The risk of damage to other vegetation from spray drift is increased with the use of Atrazine in oil-water emulsions. Do not add other herbicides or hormone-type weedkillers such as 2,4-D, 2,4-DB, MCPA, MCPB or dicamba.

MIXING: Fill spray tank half full, add the desired amount of Atrazine and continue filling. Add CORN OIL CONCENTRATE last. Continue agitation after filling.

CORN (Field or Sweet): Use the recommended rate of Atrazine as given on the product label in combination with CORN OIL CONCENTRATE. Apply to emerged broadleaf weeds and grasses before they are 4 cm high and before 21 days from date of planting. Apply 2.5 litres of CORN OIL CONCENTRATE in 200 litres of spray solution per hectare. Do not apply after the corn is 15 cm high. PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed.

Avoid contact with skin, eyes or clothing. Do not apply or allow to drift to areas occupied by plants, other than those being sprayed, or unprotected humans and animals. Do not contaminate water supplies, irrigation ditches, ponds, lakes or streams.

FIRST AID: This product contains petroleum distillates. If swallowed, DO NOT INDUCE VOMITING. Rush to nearest hospital taking this labelled container with you. If in eyes, flush with plenty of water for 15 minutes and get medical attention. In case of skin contact, remove contaminated clothing and wash thoroughly with soap and water.

STORAGE: Keep container tightly closed and DO NOT allow water to be introduced to contents of this container. Do not store at temperatures below 0°C. Shake well if stored for one year or longer.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to the spray mixture in the tank.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.

5. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Conservation and Protection, Environment Canada.

NOTICE TO USER: This control product is to be used only in accordance with the Directions on this label. It is an offence under the Pest Control Product Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
