Mailing Address: P.O. Box 3060
Station A, Mississauga, Ont. L5A 3T5

DIRECTIONS:

Metalworking fluids: DEARCIDE 6107 is recommended for soluble and emulsifiable type aqueous metalworking fluids, such as emulsified petroleum oils and formulations containing alcoholic fatty acid, sulfonated red oil, or naphthalene sulfonate. These fluids are usually prepared by diluting the product concentrates 1:40 to 1:60 with water. For the maintenance of a non fouled system add 250 ppm of DEARBORN 6107 or 250 ppm to 1125 ppm of DEARBORN 6107 every 8 to 12 weeks.

For a noticeably fouled system use an initial dosage range of 500 to 1125 ppm followed by subsequent dosages depending upon the

treatment level noted above. A higher dosage range and/or increased frequency of treatment may be required depending on rate of dilution of the preservative with makeup fluid, the nature and severity of contamination level of control required, filtration effectiveness, system design etc.

The preservative should be dispensed into the use-dilution of the metalworking fluid by a metering pump and uniformly dispersed throughout the system. DEARBORN 6107 weighs 1 kilogram per litre. See Product Bulletin 62-6107 for additional information.

Fuel Preservative: Dearcide 6107 is recommended for the control of bacteria and fungi in the following liquid hydrocarbon fuels and oils: aviation fuels, kerosene, heating, oils, diesel fuels, residual fuel oils and petrochemical feedstocks. Dearcide 6107 should be dispensed directly into a fuel storage tank or flowing stream of fuel ensuring uniform distribution. When the system is fouled, add 100 to 500 mL of Dearcide 6107 per 1,000 Kg of fluid. Repeat until control is achieved. When control is achieved, reduce dosage to 50 to 300 mL of Dearcide 6107 per 1000 Kg of fluid. Repeat every 4 to 6 weeks or when fouling becomes evident.

ECOLOGICAL:

Open dumping is prohibited. If plastic, do not reuse empty container. This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of waters. Apply this product only as specified on this label.

CAUTION:

DANGER - CORROSIVE TO EYES AND CAUSES SKIN BURNS. MAY CAUSE ALLERGIC SKIN REACTION. MAY BE HARMFUL IF INHALED. MAY BE FATAL IF SWALLOWED OR ABSORBED THROUGH THE SKIN. Do not get in eyes, on skin, on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing vapour or mist. Do not take internally. Wash thoroughly after handling. DO NOT USE IN POTABLE WATER. Do not contaminate water, food or feed by storage or disposal.

FIRST AID:

In case of contact, immediately flush eyes and skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, do not induce vomiting. Drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol.

Call a physician immediately. Never give anything by mouth to an unconscious person. If inhaled, remove person immediately to fresh air. If not breathing, apply artificial respiration. If breathing is difficult, give oxygen. Call a physician.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against shock, respiratory depression and convulsion may be needed.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instruction for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of ENVIRONMENT CANADA.
5. For small spills. Recover free liquid. Soak up residue with solids absorbent. Do not flush into surface streams. INFORM ENVIRONMENT CANADA AS IN #4.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
