DIRECTIONS FOR USE:

SELECTION OF TREATMENT AREAS: Place bait in locations where rats and mice travel and will most likely find and consume the bait. Placement along walls, in corners, by gnawed openings, in and around burrows and in concealed locations where rats and mice feed is desirable. Maintain a steady supply of fresh bait. Remove any spoiled or contaminated bait promptly.

USE LIMITATIONS:

MUST either be placed in tamper-resistant bait stations or in locations not accessible to children, pets or livestock. **DO NOT** place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

APPLICATION DIRECTIONS: Each Bar consists of a 450 g slab to be broken into 8 pieces (56 grams each). For Norway Rats (*Rattus norvegicus*) and Roof Rats (*Rattus rattus*): Eliminate as much of the naturally occurring food as possible and place 3 to 10 pieces of Just One Bite Bait Bar (usually at intervals of 5-10 m) within the treatment area. Maintain an uninterrupted supply of fresh bait for at least 10 days, or until signs of rat activity cease.

For House Mice (*Mus musculus*): Eliminate as much of the naturally occurring food as possible and place 1 piece of Just One Bite Bait Bar at intervals of 2-4 m within the treatment area. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse activity cease.

Burrow Application: Place 1-2 pieces of Just One Bite Bait Bar per burrow.

Update

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN, PETS AND LIVESTOCK. May be harmful or fatal if swallowed or absorbed through the skin. Do not open pre-measured placepacks. Rubber gloves must be worn when disposing of dead rodents, unconsumed bait and empty containers. Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Wash skin thoroughly with soap and water after handling. Wash contaminated clothing, separately from other laundry, with soap and hot water before reuse. KEEP AWAY FROM FEED AND FOOD STUFFS. This product is toxic to fish and wildlife. Keep out of lakes, streams and ponds.

FIRST AID: For all cases of human ingestion, immediately notify a physician or poison control centre. If pet or livestock poisoning is suspected, immediately contact a veterinarian. **If in eyes**, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If on skin or clothing**, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If swallowed**, Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and PCP Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Vitamin K1 in the form of intravenous, intramuscle or subcutaneous injections, or by oral ingestion are suggested remedial treatments for anticoagulant poisoning. The severity of the case measured by establishing prolonged prothrombin times (P.T.) will determine appropriate therapy. Monitoring P.T. will indicate the necessity of repeated treatments.

STORAGE: Store in a cool, dry place away from other chemicals and food or feed. Store product not in use, in original container, in a secure location inaccessible to children and non-target animals. Do not contaminate water, food or feed by storage or disposal.

DISPOSAL: Do not reuse empty container. Dispose of unused or spoiled bait in accordance with local requirements. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills. Dispose of empty container by placing in household garbage.

RODENT DISPOSAL: Dispose of dead rodents in garbage or by burying.
