Distributed by:

Anipet Animal Aids

#10-8145 130th Street

Surrey BC V3W 7X4

An insecticidal shampoo rich in coconut conditioners that aid in building body, lustre and groomability to the coats of dogs and cats. The insecticidal ingredients are highly and rapidly effective against fleas and ticks when used as directed.

DIRECTIONS FOR USE:

Wet dog or cat and apply a generous amount of shampoo working it well into the coat. For best results, the dog or cat should be left in a lathered state for four to five minutes before rinsing with warm water. Do not treat eyes, face, or genitalia. For effective flea and tick control, treatment of the pet must be combined with the cleanup and sanitation of any area used by the pet. Vacuum floors, carpets and furniture (discard vacuum bag after use) and wash the pet's bedding, living quarters, and surrounding areas.

PRECAUTIONS:

Harmful if swallowed. Keep out of eyes and avoid contact with mucous membranes. In case this product should get in the eyes, flush immediately with warm water. In case of infection or skin irritation, discontinue use and consult a veterinarian. Avoid contamination of feed or foodstuffs. Wash hands after use. Consult veterinarian before using on pregnant animals, sick animals, or animals under drug or other pesticide treatment. Do not use on nursing animals or animals under 8 week of age. Discontinue use if adverse effects are observed.

FIRST AID:

If in eyes or on skin, flush with clean water. If irritation persists, obtain medical attention. If accidentally swallowed call poison control centre and obtain medical attention at once. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Treat symptomatically.

DISPOSAL:

Do not reuse empty container. Wrap container in several layers of newspaper and discard with household garbage.
