#### GENERAL INFORMATION:

The Zodiac Flea & Tick Powder has been developed to control Brown Dog and American Dog ticks on dogs and cats. It is also effective against fleas on dogs and cats.

#### DIRECTIONS FOR USE:

Do NOT administer by mouth. Use only in well-ventilated areas, preferably outdoors. Dust powder over the animal and rub thoroughly into the skin. Be sure to thoroughly treat the feet, legs and between toes. Do not treat mouth, eyes, face or genitals. Comb out dead ticks a few hours after treatment. Do not use this powder more often than once every week. Treatment must only be repeated if pest problem reoccurs. Do NOT use on sick or nursing animals, on animals receiving drug or other pesticide treatment, or on dogs or cats under 12 weeks of age. Consult a veterinarian before using on aged or pregnant animals. Do NOT use this product at the same time or within 30 days before or after treatment with, or exposure, to other cholinesterase-inhibiting drugs, pesticides or chemicals. For Kennels, Dog Houses and Sleeping Pads: Remove and clean or destroy old bedding materials. Thoroughly wash quarters with detergent and water, then allow to dry. Dust powder in and around sleeping quarters and other areas where ticks and fleas may hide.

For effective flea and tick control, treatment of the pet should be combined with sanitation of any area used by the pet. Vacuum floors, carpets and furniture (discard vacuum bag after use) and wash the pet's bedding, living quarters and surrounding areas. If pest problems persist, an insecticidal treatment of the premises may be required (Zodiac Premise Plus, Zodiac Premise 1000/2000). A veterinarian should be consulted when pest infestation continues to be a problem on the pet.

#### PRECAUTIONARY STATEMENTS:

**HUMANS: KEEP OUT OF REACH OF CHILDREN.** Harmful if swallowed or inhaled. Avoid breathing dust and contact with skin. Wear rubber gloves, during application of this product. After handling or applying, wash hands (or any other skin that came into contact with the product) with soap and water. Avoid product contact with food, food utensils or places where food is prepared or stored.

**PETS:** Harmful if swallowed or inhaled. Avoid contact with pet's mouth, face, eyes and genitals.

Toxic to fish and other aquatic life. Cover fish aquaria in the vicinity of treatment area. Toxic to birds.

#### FIRST AID:

**HUMANS: IF SWALLOWED,** obtain medical attention or call a poison control centre immediately. **IF ON SKIN,** wash affected area with soap and water. **IF IN EYES,** flush eyes with plenty of water. If skin or eye irritation persists, obtain medical attention

**PETS:**

Sensitivities may occur after using ANY pesticide for pets. Sensitive cats may exhibit temporary and non-harmful salivation. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

Take container, label or product name and PCP Registration Number with you when seeking medical or veterinary attention.

**TOXICOLOGICAL INFORMATION:**

This product contains a pesticide that is a cholinesterase inhibitor (an anti-cholinesterase compound). Atropine is antidotal.

**STORAGE:** Avoid storage near feed or food products.

**DISPOSAL:** Do not reuse empty container. Wrap and dispose of empty container with household garbage.
