Direction for use

Laundry: Dilute 40 to 50 mL of this product in 1 litre of water and pour in your wash water before adding laundry. Safe for nylon, orlon, terylene and for all fast colours. Do not use on wool, silk, unfast colours, leather or silverware.

Different uses: Removes stains, disinfects and deodorizes toilet bowls, baths, garbage cans, sick rooms, linoleum, woodwork, tiles, counter sinks, refrigerators, dish water: 15 mL per 1 litre of water.

Precautions: KEEP OUT OF REACH OF CHILDREN. Dangerous gas formed when mixed with acid. Do not mix with any other chemical. Do not re-enter treated area until two hours after spray or fogging application. Wear goggles or a face shield, chemical-resistant gloves, long pants, a long-sleeved shirt, shoes and socks when handling this product. Avoid contact with skin and eyes. Harmful if swallowed. Keep container closed and store in a cool location. Rinse container thoroughly before discarding. Do not re-use.

First aid: If splashed in eyes or on skin, flush thoroughly with water for 15 minutes. For eye contact, get medical attention. If swallowed, drink one glass of milk or water. Call a physician or poison control center immediately.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

Toxicological information: Treat Symptomatically

Disposal: Triple or pressure-rinse the empty container. Add the rinsings to the treatment site. Follow provincial instructions for any required additional cleaning of the container prior to its disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill.

Notice to user: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

Swimming pool: CONTROLS BACTERIA AND ALGAE IN POOL WATERS.

1. Maintain recommended daily levels as determined by testing kit. Free available chlorine: 1.0 - 3.0 ppm, pH: 7.2 - 7.8, Total Alkalinity: 100 - 120 ppm, Calcium Hardness: 200 - 300 ppm.
2. Initially superchlorinate pool water by adding to the pool 1 L of this product per 10,000 L of pool water. For best results superchlorinate at dusk.
3. Chlorinate daily to maintain proper chlorine residual with 250 mL of this product per 10,000 L of pool water, or as needed.

NOTE: Hot weather, heavy pool usage, and rain may require higher usage rates to maintain proper chlorine residuals.

4. Superchlorinate weekly with 1 L of this product per 10,000 L of pool water when average daily temperature is 25°C -32°C. Otherwise, superchlorinate every other week.
5. For visible algae superchlorinate using 2 L of this product per 10,000 L of pool water. Heavy algae infestation may require dosages up to 3 L per 10,000 L. Vacuum pool when dead algae settles.
6. For wading pools, chlorinate daily to maintain a chlorine residual of 3 -5 ppm by adding 45 mL of this product per 1,000 L of pool water, or as needed.

NOTE: For outdoor pools, chlorine residuals can be protected from destruction by sun's rays by addition of stabilizer (cyanuric acid).
