

96.09.04

An ultra-sonic device which gives an effective method to relieve and protect your premises from House Mice & Norway and Roof Rats.

The "WARRIOR", Rodent Repeller may be used in any enclosed or semi-enclosed area where mice and rodents are a problem, IE: Homes, trailers, apts., farm buildings, schools, restaurants, factories, warehouses and storage sheds.

The High Intensity, Ultra-Sonic sound that is produced by the "WARRIOR" is far above the hearing capabilities of humans.

After extensive research this pest repeller has been tested in homes, warehouses and factories and has been proven to be a successful and desirable method to control and eliminate mice and rodent infestation.

For use with and in conjunction with normal pest control practices.

To use repeller, plug adapter into A.C. outlet and place unit against a wall or in the corner, with the red light and transducer screen pointing out towards to centre of the room. The U.S. sound will then fill the room with sound waves and they will bounce off adjacent walls.

UL Listed 81J-EB1356 & CSA Certified LR84186, 12 VDC Power Supply.
