This product is sold only for uses stated on its label. No express or implied license is granted to use or sell this product under any patent in any country except as specified: Country: Canada

## NOTICE TO USER

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

## NOTICE TO BUYER

Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

## FIRST AID

**IN CASE OF POISONING**, contact a physician or a poison control centre **IMMEDIATELY**. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

If a known exposure occurs or is suspected, **IMMEDIATELY** start the procedures given below. If further treatment is required, contact a Poison Control Centre, a physician, or the nearest hospital.

**IF SWALLOWED:** **IMMEDIATELY** give several glasses of water and induce vomiting by gagging the victim with a finger placed on the back of the victim's tongue. Give fluids until vomitus is clear. If victim is unconscious or convulsing, do not induce vomiting or give anything by mouth. Call a physician or contact a poison control centre **IMMEDIATELY**.

**IF IN EYES:** **IMMEDIATELY** flush eyes with large amounts of running water for at least 15 minutes. Hold eyelids apart during flushing to ensure rinsing of the entire surface of the eye and lids with water. Get medical attention or contact a poison control centre **IMMEDIATELY**.

**IF ON SKIN:** Flush all affected areas with plenty of water for several minutes. Remove contaminated clothing and shoes. Seek medical attention or contact a poison control centre **IMMEDIATELY** if skin irritation occurs. Wash clothing before reuse.

**IF INHALED:** Remove to fresh air. Seek medical attention or contact a poison control centre **IMMEDIATELY** if respiratory irritation occurs or if breathing becomes difficult.

## TOXICOLOGICAL INFORMATION

VERNAM<sup>®</sup> Technical is a weak cholinesterase inhibitor. Atropine is antidotal. Use of pralidoxime chloride (2-PAM, PROTOPAM) is not recommended. Treat eye, skin or naso-pharyngeal irritation symptomatically.

For further information see the Product Safety Information sheet for VERNAM<sup>®</sup> Technical.

## **PRECAUTIONS**

KEEP OUT OF REACH OF CHILDREN OR UNAUTHORIZED PERSONNEL

HARMFUL IF SWALLOWED. Avoid contact with skin, eyes and clothing. Avoid breathing vapours. Wear goggles, rubber gloves and protective clothing. Wash skin with soap and water immediately after contact. Flush eyes with water.

## **ENVIRONMENTAL PRECAUTIONS**

Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

## **STORAGE**

Store the product in closed original container. Containers should be stored in a cool, dry, ventilated area away from flammable materials, sources of heat and flame, and foodstuffs.

## **SPILL HANDLING**

Make sure all personnel involved with spill are aware of the hazards associated with this material.

A small spill can be handled routinely considering the physical and hazardous properties of the product as well as the location of the spill. Use adequate ventilation and wear an air supplied respirator to prevent inhalation contact. Wear protective clothing to prevent skin and eye contact. Soak up pooled liquid as follows:

- \* Spread a suitable absorbent such as clay on the liquid.
- \* Sweep up absorbent and place sweepings in an open drum.
- Generously cover the contaminated area with a common household granular detergent (e.g. TIDE\*). Using a stiff brush, work the detergent into the spill material, forming a slurry. Brush the slurry into cracks and crevices, and allow to stand for 2 to 3 minutes. Be careful to completely avoid skin or eye contact; do not splatter one's self or bystanders.
- Spread absorbents on the slurred liquid, and shovel the absorbed material into an open drum.
- Repeat if necessary.
- Flush the area with water, while observing proper environmental considerations.
- Seal drum and dispose of contaminated material in accordance with municipal or provincial recommendations.

## **DISPOSAL**

Canadian formulators using this product should dispose of unwanted active ingredient and containers in accordance with municipal or provincial regulations. For additional details and information on clean up of spills, contact the provincial regulatory agency and the manufacturer.

## **DIRECTIONS FOR USE**

To be used only in the manufacture of a herbicide which is registered under the Pest Control Products Act. Read Technical Bulletin for formulation details.
