A powerful, pleasing Disinfectant Deodorant and Germicide, very suitable for use in Hotels, Banks, Institutions, Schools, Office Buildings and Industry.

DIRECTIONS This product is instantly soluble in water. It forms a stable, creamy milk white emulsion when mixed with water.

FLOORS - When mopping or scrubbing use 9 mL to 18 mL of product per

litre of water.

GENERAL DISINFECTING - Remove all dirt and grime from the premises and use a solution of 25 mL of product per litre of water.

URINALS, WATER CLOSETS and TOILET ROOMS - Wash the closet and bowl regularly with a solution of 12 mL of product per litre of water.

GARBAGE - To reduce the breeding of flies and other vermin, wash the garbage container with a solution of 24 mL of product per litre of water.

PRECAUTION: Avoid contact with full strength material. In case of accidental splashing in eyes, flush with copious quantities of water. If after continuous use hand irritation should occur, rubber or plastic gloves are recommended.

FIRST AID: If accidentally ingested call a physician and give milk or cornstarch slurry as antidote. If full strength material is accidentally splashed on the skin, wash with soap and water and rinse in lukewarm water.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label.
