DIRECTIONS FOR USE: To kill flies, Mosquitoes, Gnats, Wasps and Flying Moths: Close all windows and doors and direct spray upward into centre of the room with a slow, sweeping motion. Spray 5 to 10 seconds for average room. Keep nozzle 1 metre from surfaces. Keep room close for 15 minutes after spraying. Cover exposed food and utensils before spraying. To kill Cockroaches, Silverfish, Crickets and Ants: Spray baseboard, cracks, crevices, moist areas, and openings around sinks and pipes and

other hiding places, hitting the insects directly. Spray ant hills and ant trails over window and door sills and other locations. Repeat as necessary for control.

FOR OUTDOOR AND FLOWER GARDEN USE: Controls chewing insects including caterpillar, climbing cutworms, Japanese Beetle and sucking insects (aphrids, leafhoppers, thrips) (exposed), (spider mites) on a such plants as Asters, Azaleas, Begonias, Chryanthemums, Dahlias, Delphiniums, Gladioli, Irises, Marigolds, Petunias, Roses and Snapdragons. Also for use on evergreens and small ornamental deciduous trees, shrubs and vines. For best results spray in evening or on a cloudy day when air is still. Use slowly sweeping motion. Keep can 45 cm form plants. Avoid wetting foliage with the spray. Spray rows at the rate of 30 cm per second. For heavy growth spray sow on both sides. Repeat when needed. Spray with caution on young plants and new growth. Do not spray garden when temperature exceeds 32'C.

CAUTION: Keep out of reach of children. Contents under pressure. Do not place in hot water or near radiators, stoves, or other sources of heat. Do not puncture or incinerate container or store at temperature over 49'C. May stain finished surfaces if sprayed too closely.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
