DowElanco(TM)

Herbec\* 20P  
Herbicide

- For control of brush on hydro rights-of-way, railways, airports, military bases, pipelines, fence rows, and highways.

COMMERCIAL

READ THE LABEL BEFORE USING. KEEP OUT OF REACH OF CHILDREN.

GUARANTEE: Tebuthiuron..... 20%

REGISTRATION NUMBER 15478 PEST CONTROL PRODUCTS ACT

NET CONTENTS: 22.68 Kg

USE PRECAUTIONS:

HERBEC 20P is a non-selective herbicide. It may kill desirable grasses in localized areas around the pellets, leaving a spotty ground cover for 1 to 2 years.

Do not apply HERBEC 20P on or near field crops, desirable trees or shrubs, on areas into which their roots may extend, or in locations where the chemical may be washed in contact with their roots, as injury or death may occur.

FIRST AID:

If swallowed: Induce vomiting. Call a physician and/or transport to emergency facility immediately.

If in eyes: Irrigate immediately with flowing water for fifteen minutes.

If on skin: Wash off in flowing water or shower. If inhaled: Remove to fresh air if effects occur. Consult a physician.

ENVIRONMENTAL:

Do not contaminate any body of water.

DIRECTIONS FOR USE

Read all directions carefully before applying.

Apply HERBEC 20P with aerial equipment (helicopter or fixed wing) or ground granular applicators, properly calibrated to distribute the pellets uniformly. Apply the pellets at 17 to 22 kg per hectare depending on target brush species.

HERBEC 20P may be applied at any time the ground is not frozen or snow covered. However, summer and fall applications will not control brush well until the following year.

Treatments become effective when sufficient rainfall occurs to carry the chemical into the root zone where it is taken into the plant. Brush kill may continue for several months after a single application. Maximum effect on some species may take 24 to 36 months. During this time the plants may go through repeated defoliations before complete control is achieved.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label, and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

APPLICATION RATES:

HERBEC 20P is recommended for the control of the following species of undesirable woody plants at the indicated application rates:

Woody Species Controlled

Common Name	Scientific Name	HERBEC 20P Kg/ha
-------------	-----------------	---------------------

Poplar	Populus	17
Tamarack	Larix laricina	17
Willows	Salix	17
Pine	Pinus	17
Spruce, white	Picea glauca	17
Spruce, black	Picea mariana	17
Fir, balsam	Abies balsamea	17
Birch	Betula	17
Alder	Alnus	17
Hard hack	Spiraea tomentosa	22

Storage, Rinse, Drain, and Disposal Procedure

Thoroughly clean all traces of HERBEC 20P from application equipment after use. Residues cleaned from application equipment should not be emptied on areas where they will come into contact with the roots of desirable trees, shrubs, plants, or water source. Do not contaminate food or feed by storage or disposal. Open dumping is prohibited.

1. Do not reuse container. Make the empty container unsuitable for further use and dispose in accordance with Provincial requirements.
2. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office of Conservation and Protection, Environment Canada.
