KONK TOO KILLS FLYING INSECTS BEFORE THEY CAN BREED

DIRECTIONS:

SPACE SPRAY: Kills flying insects in milking parlours and milking rooms. Remove animals before treatment. Direct spray upwards to all parts of the room especially windows and other light sources. Apply at a rate of 6 to 10 seconds per 30 m3.

Remove all animals from treatment area before using as a space spray. For best results close all doors and windows during treatment and keep room closed for fifteen minutes before ventilating. Ventilate treated areas thoroughly for at least 30 minutes.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Do not remain in treatment areas. Ensure proper ventilation after sealed areas have been treated. Cover milk and milking utensils to prevent contamination from spray and dead insects. (Any treated areas that may contact food should be washed thoroughly with potable water after spraying and before re-use). Avoid inhalation of spray. Avoid contact with skin and eyes. Wash after using. Dispose of empty container with household garbage. CONTENTS UNDER PRESSURE. Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture or incinerate can or store at temperatures over 50'C. Do not spray into or near open flame.

FIRST AID: If sprayed in eyes or on skin, flush with clean water. If irritation persists obtain medical attention. If accidentally swallowed obtain medical attention at once.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

LIMITATIONS OF WARRANTY: Seller's guarantee shall be limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
