DIRECTIONS

USE	APPLICATION INSTRUCTIONS	CONTROLS	MIXING/ COVERAGE
Undesirable vegetation control around buildings, lawn trimming/edging, patio weed control, vacant lots, storage & recreational areas, driveways, hard to mow areas and other similar areas	Apply to vigorously growing plants, Apply to annual weeds anytime after emergence. For perennial weeds apply after seed heads, flowers or berries appear.	Most annual and perennial grasses and weeds, such as quackgrass, chickweed, ragweed, knotweed, poison ivy, Canada thistle, milkweed, bindweed	1) Mix 100 mL of product in 2 L of clean water (1 part GLYPHOSATE to 20 parts water). 2) Apply prepared solution over equivalent of 40 m ² (10 paces x 4 paces* or 20 paces x 2 paces*).
Around trees/shrubs/oramentals	Apply around base in a neat fashion. Avoid spray or drift contact with foliage, stems or green bark of desirable plants.		3) Ensure uniform and complete spray coverage but not to the point of runoff. NOTE: Mix only enough spray solution to treat intended area. Rinse sprayer thoroughly after each use.
Lawn/garden renovation	For best results on lawns, skip one mowing prior to treatment. Allow at least 3 days after treatment before disturbing the soil and/or replanting.		(Continued on next page)

Brush control	Apply after leaves are fully expanded. Treat trees and brush up 1.5 m in height only; for taller trees and brush, cut back to 1.5 m or cut down and spray re-growth.	Most brush such as poplar, alder, maple and raspberry	Do not store spray mixture in sprayer for prolonged periods. Do not use hose-end sprayers. * pace = approx. 1 m

**In case of a medical emergency involving this product, call
toll free day or night
1-800-228-5635, X 153.**

USES: ALONG FENCE, EDNGG/TRIMMING LAWNS, PATIO WEED CONTROL, DRIVEWAYS, LAWN/GARDEN RENOVATION, HARD-TO-MOW AREAS (SEE DIRECTIONS).

PRECAUTIONS FOR USE

Avoid spray contact with desirable plants as any plant contacted may be killed. Do not spray in windy conditions. Do not spray to the point of run-off. Heavy rainfall immediately after application may wash the chemical off the foliage and repeat treatment may be required. Do not apply if rainfall is forecast for the time of application.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN. CAUSES EYE IRRITATION, HARMFUL IF SWALLOWED.

Avoid contact with eyes or prolonged contact with skin. Do not allow others such as children and pets on treated areas during application or to re-enter treated areas until spray has dried. Wash immediately after using this product. Do not contaminate foodstuffs, seed or feed by storage or disposal.

FIRST AID

If on skin, flush with water.

If ingested, drink water or milk and get medical attention or call a Poison Control Centre.

If in eyes, immediately flush with plenty of water for at least 15 minutes. Call a physician or contact a Poison Control Centre. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

DISPOSAL

Rinse container and empty rinsate into sprayer. Do not reuse empty container. Dispose of empty container with household garbage.

GENERAL PRODUCT INFORMATION

GLYPHOSATE is a non-selective herbicide. It controls most annual and perennial grasses, including lawn grasses, broadleaf weeds and brush (i.e. virtually anything that is green and growing). It is absorbed by the leaves and moves

throughout the stem and roots to control the entire plant. Mature perennial weeds should be treated after seed heads, flowers or fruit appear. All plants are most easily controlled in the young, actively growing, and seedling stage. GLYPHOSATE wits and browns plants within 48 hours. Plants usually dry up within 7 to 14 days. GLYPHOSATE has no soil activity and will not run off to affect nearby vegetation. To ensure that GLYPHOSATE gets down to the roots, avoid tillage or disturbing the treated area for 7-10 days after treatment or as directed below. Make sure to contact only those plants that you want to kill. GLYPHOSATE will damage or kill any desirable plants it contacts. Use a repeat application on any seedlings that re-grow from seeds.
