Grow Master

Moss Killer
with 9% Ferrous Sulphate

WHAT IT PROVIDES

Use as part of a complete Grow Master lawn feeding program to control moss in your lawn. Moss may be caused by an extremely acidic soil condition. An application of Dolomite Lime may also be needed if moss condition does not improve. Also, if used as directed, is a source of iron and sulphur for lawns.

WHEN TO USE

1. Use in early spring when moss is actively growing.
2. Apply when at least 2 days of dry weather are forecast.
3. Apply to established lawns.

HOW TO USE

1. Moisten moss affected areas thoroughly.
2. Measure the moss affected area by pacing out the length and width (one pace equals approximately one metre).
3. Ensure spreader is shut. Fill spreader using approximately 1 kg per 10 square metres (2.0 lbs. per 100 square feet).
4. Using a spreader opening of about 1/3, apply 1/2 the amount in one direction and apply the remaining 1/2 in the opposite direction (see diagram). Shut spreader off when turning or stopping. Be careful to avoid contact with concrete patios, walks, walls, etc.
5. Water in thoroughly.
6. After use rinse spreader and wash exposed skin with soap and water.
7. Do not mow lawn for 48 hours after use.
8. Repeat applications at the same rate may be necessary after 3 weeks for further control of persistent moss. (If moss condition still does not improve, an application of Dolomite Lime may be needed.)

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN. Will stain cement products such as patios, sidewalks, blocks and stucco, etc. Harmful if swallowed. Avoid contact with skin, eyes and clothing. Avoid breathing dust. After use, wash exposed skin with soap and water. Store bag tightly closed away from children and pets. May corrode bare metal. Flush off spills with clear water. May stain stone, brick

masonry or light coloured sidings.

STORAGE

Stored materials should be placed in a dry and reasonably temperatured area, preferably below 25'C (77'C). Keep in original container during storage. Store away from seed and feed.

DISPOSAL PROCEDURES

Discard empty container in household garbage.

FIRST AID

IF IN EYES: Flush with plenty of water and get medical attention or contact poison control centre.

IF ON SKIN: Wash with soap and water.

IF SWALLOWED: Get medical attention or contact poison control centre.

NOTICE TO BUYER:
