ANSWER® FOR THE CONTROL OF POCKET GOPHERS

RODENTICIDE BAIT

NETCONTENTS: \_ Kg

KEEP OUT OF REACH OF CHILDREN  
CAUTION

GUARANTEE:  
DIPHACINONE.....0.005%

REGISTRATION NO. 21877  
PEST CONTROL PRODUCTS ACT

READ THE LABEL BEFORE USING

WARNING, Contains the Allergen, PEANUTS.

**PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN:**

Keep away from humans, domestic animals and wildlife. Do not expose treated bait in areas accessible to children, dogs, domestic animals, and wildlife except when enclosed within a tamper-resistant bait box.

Keep away from feed or food stuffs.

Do not get in eyes, on skin or on clothing. Wash arms, hands and face with soap and water after handling and before eating or smoking. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding.

**TOXICOLOGICAL INFORMATION:**

If ingested, administration of Vitamin K1 in the form of intravenous, intramuscular or subcutaneous injections, or by oral ingestion are suggested remedial treatments for anticoagulant poisoning. The severity of the case measured by establishing prolonged prothrombin times (P.T.) will determine appropriate therapy. Monitoring P.T. will indicate the necessity of repeated treatments.

**FIRST AID:**

If accidentally swallowed, call a physician or poison control center immediately. If in eyes, flush with water for 15 minutes. If on skin, wash with soap and water. Take container, label or product name and Pest Control Registration Number with you when seeking medical attention. Call a physician or Poison Control Center immediately.

**ENVIRONMENTAL HAZARDS:**

Keep out of lakes, streams, or ponds.

**STORAGE AND DISPOSAL**

**DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.**

**STORAGE:**

Keep in original container during storage. Store product in cool, dry, well ventilated place away from seed, feed, fertilizer, or other pesticides. Keep away from fire or open flame, or other source of heat.

**DISPOSAL:**

Do not reuse empty container. Dispose of unused or spoiled bait in accordance with local requirements. Follow provincial instructions for any required cleaning of the container prior to its disposal. Make the empty container unsuitable for further use.

Dispose of the container in accordance with provincial requirements. For information on disposal of unused, unwanted product contact the manufacturer or provincial regulatory agency. Contact the manufacturer or provincial regulatory agency in case of a spill, and for clean-up of spills.

**J.T. Eaton & Co., Inc.**  
**1393 East Highland Road**  
**Twinsburg, OH 44087 • U.S.A.**

**RODENT DISPOSAL:**

Dispose of dead rodents in garbage or by burying.

**NOTICE TO USER:**

This control product is to be used only in accordance with the directions on this label.

It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

**NOTICE TO BUYER:** Seller's guarantee shall be limited to the terms of the label and, subject thereto, the buyer assumes any risk arising out of the use and handling of the product.

**DIRECTIONS FOR USE**

**USE RESTRICTIONS:**

For control of *Thomomys talpoide's*.

- a. This product is registered for manual, subterranean use only.
- b. Do not attempt to apply this product with mechanical equipment (burrow-builders, mechanized probes, etc.)

For use in RANGELAND, CROPLAND (grain fields, forage crops, hay and alfalfa crops), FOREST AND NONCROP AREAS including parks, nurseries and around homes.

**BAITING: PLACE** baits in main runways. To locate a main runway, probe 3 to 4.5 decimeters from the surface mound on the side which is flattened or depressed, using a burrow probe or a smooth metal rod. When resistance on probe suddenly decreases, probe is in the main runway. Open the runway with the probe, a spade or a shovel. Place one ANSWER bait into each opening of the runway and cover the opening securely to exclude light. Do not permit soil to cover bait. Place baits at two or three locations in each burrow system. A pocket gopher will normally travel to all portions of its burrow system within a few days.

As some gophers may die above ground, check the area periodically for 10 to 15 days after treatment. Bury or incinerate (if permitted locally) any dead animals found. If pocket gopher activity persists 2 weeks after treatment, bait active burrow a second time.
